

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: KIPP Excelencia Community Preparatory

CDS Code: 41690050132068

School Year: 2025-26

LEA contact information:

Liz Coughenour and Hugo Lawton

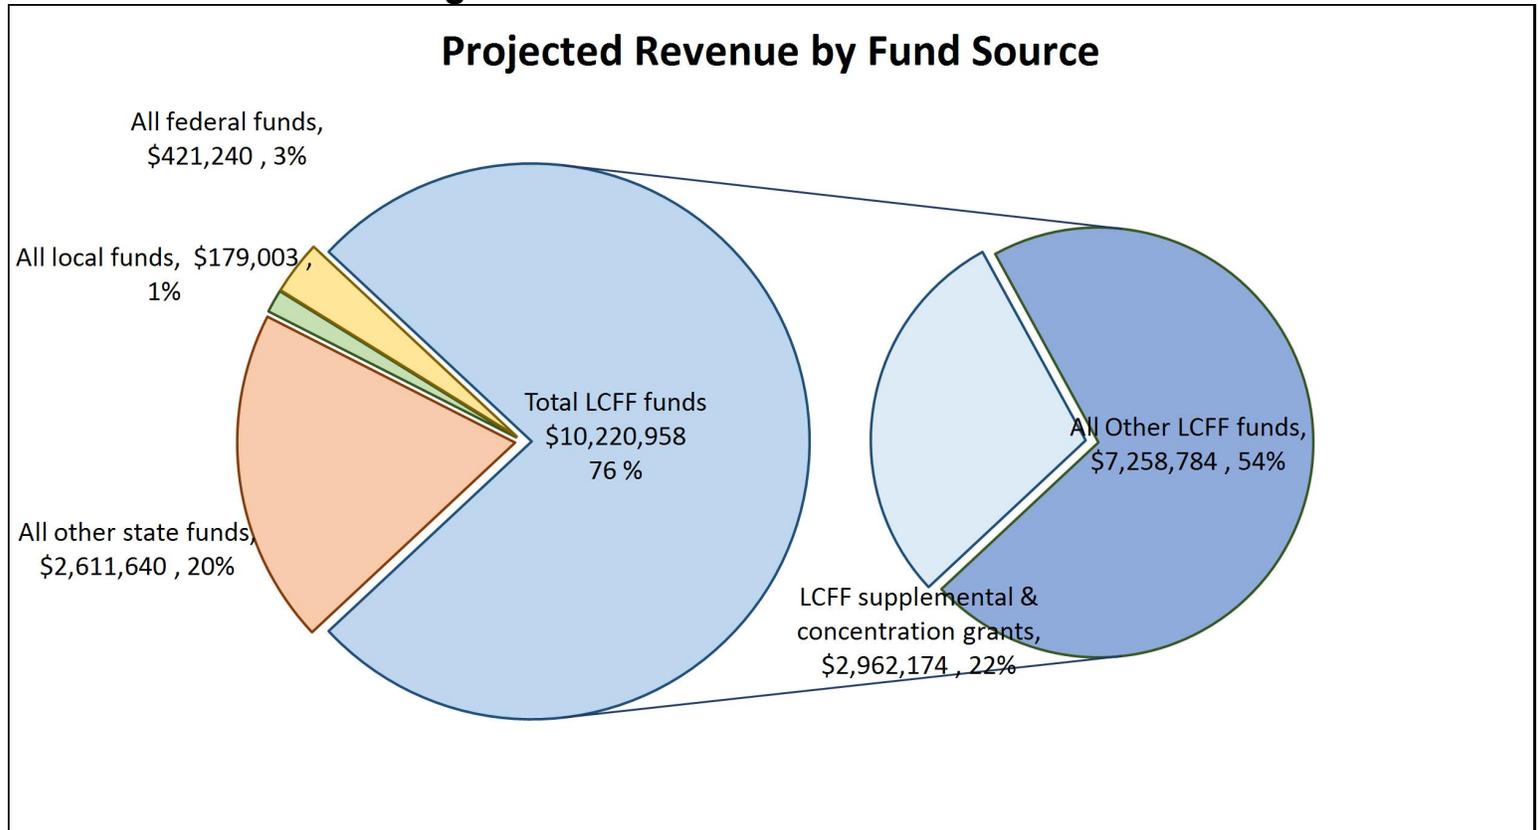

KIPP Excelencia Community Prep School Leader

opsadmin@kipnocal.org

510-465-5477

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2025-26 School Year

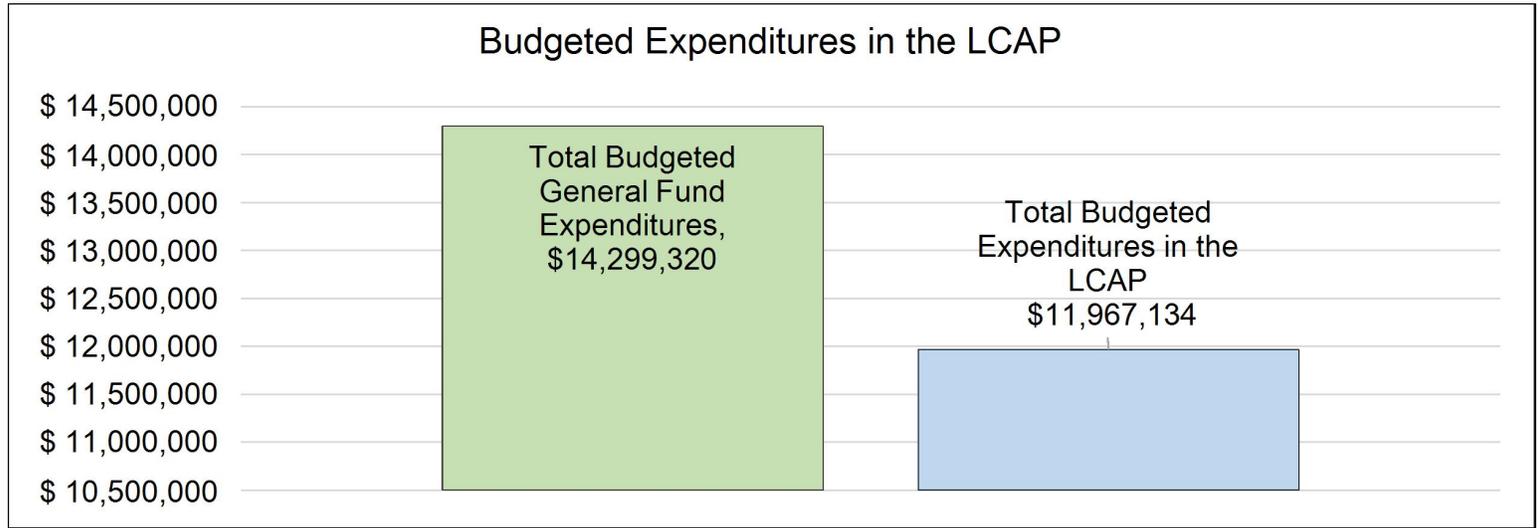

This chart shows the total general purpose revenue KIPP Excelencia Community Preparatory expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for KIPP Excelencia Community Preparatory is \$13,432,841, of which \$10,220,958 is Local Control Funding Formula (LCFF), \$2,611,640 is other state funds, \$179,003 is local funds, and \$421,240 is federal funds. Of the \$10,220,958 in LCFF Funds, \$2,962,174 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much KIPP Excelencia Community Preparatory plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: KIPP Excelencia Community Preparatory plans to spend \$14,299,320 for the 2025-26 school year. Of that amount, \$11,967,134 is tied to actions/services in the LCAP and \$2,332,186 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Expenditures not included in the LCAP include select or partial non-instructional salaries, meal service costs, and costs associated with staff appreciation and student recruitment.

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, KIPP Excelencia Community Preparatory is projecting it will receive \$2,962,174 based on the enrollment of foster youth, English learner, and low-income students. KIPP Excelencia Community Preparatory must describe how it intends to increase or improve services for high needs students in the LCAP. KIPP Excelencia Community Preparatory plans to spend \$4,931,650 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

Prior Year Expenditures: Increased or Improved Services for High Needs Students

■ Total Budgeted Expenditures for High Needs Students in the LCAP

\$2,835,509

■ Actual Expenditures for High Needs Students in LCAP

\$4,746,991

\$ 0 \$ 1,000,000 \$ 2,000,000 \$ 3,000,000 \$ 4,000,000 \$ 5,000,000

This chart compares what KIPP Excelencia Community Preparatory budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what KIPP Excelencia Community Preparatory estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, KIPP Excelencia Community Preparatory's LCAP budgeted \$2,835,509 for planned actions to increase or improve services for high needs students. KIPP Excelencia Community Preparatory actually spent \$4,746,991 for actions to increase or improve services for high needs students in 2024-25.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
KIPP Excelencia Community Preparatory	Liz Coughenour and Hugo Lawton KIPP Excelencia Community Prep School Leader	opsadmin@kippnorcal.org 510-465-5477

Plan Summary [2025-26]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

KIPP Excelencia Community Prep serves students through a mission centered on preparing all students for college success and community impact. Founded in 2015 through collaboration between teachers, parents, students, and community members, the school operates with core values of Love, Zest, Curiosity, Grit, and Gratitude that drive both culture and academics.

The school's vision emphasizes building "a community of enthusiastic thinkers, readers, creators, and problem solvers" where each day offers opportunities for growth and kindness. This foundation supports an equitable and inclusive environment that honors individual students while valuing teamwork. The school leader emphasizes that continued partnership and collaboration with families and community will remain essential for student success throughout their educational journey and beyond.

KIPP Excelencia delivers a rigorous college-preparatory curriculum emphasizing critical thinking, analytical writing, and public speaking. These academic foundations empower students to take ownership of their education while developing skills for success as engaged community members. The school's commitment to excellence extends through comprehensive support systems designed to ensure all students receive quality education leading to choice-filled lives.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflections: Successes:

KIPP Excelencia achieved significant academic progress through strategic curriculum adoptions and targeted support systems during the current school year. The successful implementation of Eureka Squared Math curriculum across all grades TK-8 resulted in measurable improvements on internal assessments, with notable decreases in students scoring at Level 1 performance. This rigorous, high-quality curriculum adoption demonstrates the school's commitment to elevating academic standards.

English Language Development strengthened considerably through the rollout of EL Achieve curriculum in grades K-8, accompanied by schedule restructuring to enhance designated ELD across all grade levels. Teachers participated in three comprehensive professional development sessions to deepen their understanding of supporting Multilingual Learners, while newcomers and L1 students received additional intervention through dedicated ELD support. These initiatives reflect the school's targeted approach to serving diverse learners.

The school's support systems proved instrumental in achieving these successes. Assistant principals provide daily on-the-ground coaching to instructional staff, ensuring new teachers receive necessary development support. Interventionists deliver targeted instruction for students in reading and English proficiency across grade levels, while regional academic staff support teachers in implementing rigorous mathematics curriculum. This multi-layered support structure creates sustainable improvement.

Attendance outcomes showed remarkable improvement with an 18% reduction in chronic absenteeism, demonstrating the effectiveness of comprehensive engagement strategies. This success reflects coordinated efforts between teachers, school leaders, and operations teams working through established systems like the Coordination of Services Team (COST) to align supports for students facing attendance challenges.

The school's investment in new initiatives yielded positive results across multiple areas. Beyond curriculum adoptions in mathematics and ELD, the school maintained successful culture systems including Zest Fest, Fun Friday, Buddy Classrooms, and Student Government, which continue to receive positive feedback from both teachers and families. These programs create the supportive environment necessary for academic achievement while building the sense of community central to KIPP Excelencia's mission and values.

Reflections: Identified Need

KIPP Excelencia identified key growth areas requiring targeted intervention across multiple academic domains. English Language Arts initiatives include aligned Tier 2 reading intervention across grades 1-4 and piloting Fishtank curriculum in grades 5, 7, and 8 to prepare for broader implementation. The school launched IGNITE reading pilot for 25 first-grade students to address foundational skill gaps, while 6th grade piloted Course Mojo, providing targeted reading supports and scaffolded questioning aligned to individual student needs. Mathematics improvement continues through consistent use of Reflex for math fluency in grades 2-6, supported by professional development focused on student discourse and "show calls" to increase lesson rigor and critical thinking.

Students with Disabilities:

Students with Disabilities require focused attention in attendance and behavioral support areas. The school implements Coordination of Services Team meetings to address root causes of chronic absenteeism, leveraging community partnerships to address transportation, housing, medical care, and school avoidance barriers. Middle school students benefit from "Check In, Check Out" systems promoting belonging and connection for those experiencing chronic absenteeism. The school conducts porch visits for students with extended unknown absences and facilitates tiered response meetings for excessive absences leading to truancy, including case managers and teachers providing wraparound supports.

Multilingual Learners:

Multilingual Learners showed 8% ELPI growth, yet reclassification rates remain below target levels, with increasing numbers of newcomers and L1 students requiring additional support. The school implemented ELPAC Crescendo preparation through targeted data-based lessons and held reclassification ceremonies to celebrate student progress and increase family awareness. Course Mojo pilot in 6th grade provides MLs with targeted reading supports, while professional development on student discourse equips teachers with strategies to increase lesson rigor for critical thinking development. The school opened an additional ELD teacher position to support more ML students through small group instruction, actively working to fill this role to enhance services.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

The school is not currently eligible for technical assistance.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

The school is not currently eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

The school is not currently eligible for comprehensive support and improvement.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

The school is not currently eligible for comprehensive support and improvement.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Families -	<p>This year's Local Control and Accountability planning process provides meaningful engagement opportunities, allowing for refinement and reflection on goals and actionable steps to enhance student outcomes. Families receive invitations to attend various events with the School Leader, including scheduled LCAP meetings, Coffee with the School Leader sessions, KIPP Family Council (SSC structure), and Multilingual Learner Committee (ELAC structure). Interpreters are available at these gatherings, and translated materials are provided in the school's most common languages to ensure equitable engagement. Meeting topics cover a range of subjects, including but not limited to: the CA State Dashboard and LCAP alignment, state priorities, specific school goals, and actionable steps to achieve them. Input is gathered through small group exercises during meetings, where families can brainstorm together and share feedback with the community and school leadership. Additionally, the LCAP survey, the School Culture survey, and summarized empathy interview feedback (families of students with IEPs) are all additional opportunities to collect important feedback to be considered in the school's plan.</p>
Students -	<p>Students are engaged in the LCAP process by sharing feedback in regular Pulse Surveys - designed to quickly gather feedback and insights from students about various aspects of their educational experience. These surveys focus on capturing students' thoughts, feelings, and opinions on topics such as their overall satisfaction with the learning environment, their engagement in class, their</p>

Educational Partner(s)	Process for Engagement
	<p>relationships with teachers and peers, their understanding of school priorities and policies, and their general well-being.</p> <p>Student voice is also captured in various ways at the school, including student leadership councils and through regular communication and access to their teachers and administration.</p>
Teachers -	<p>Teachers are engaged in the LCAP progress in various ways, including surveys, LCAP meetings, and through regular staff development and feedback channels.</p> <p>The TNTP survey is used to assess various aspects of the teaching profession and educational environment at KIPP - teacher satisfaction, school culture, professional development opportunities, leadership effectiveness, and the overall working conditions within the school. TNTP surveys provide valuable insights into the experiences and perspectives of educators, which are then used to inform decision-making, improve policies and practices, and support teacher retention and effectiveness.</p> <p>Throughout the year, teachers engage in weekly staff meetings where they review data to inform classroom instruction. Beginning in the spring, this development will include a review of longer term data trends that will be used to inform LCAP initiatives for the following school year. Additionally, through individual coaching, teachers will share their feedback and perspectives about their experience, their support needs as well as their ideas for improving student performance.</p>
School Leaders -	<p>Engagement with School Leadership is a critical component of the LCAP as a single-site charter school. School principals, assistant principals, content specialists and operational directors must work together to ensure alignment on school goals and lead the LCAP process for their school community. These leaders gather throughout the spring to review student outcomes data, staff data, and review school resources to identify initiatives and priorities which must then be shared and implemented. School leadership is also provided</p>

Educational Partner(s)	Process for Engagement
	<p>support and access to diverse perspectives (outside of their single school), through their connection to KIPP's regional support office. This partnership provides opportunities for collaboration and resource sharing, including quarterly community of practice meetings, professional learning communities, leadership coaching and targeted skill building.</p>
Regional Support Office -	<p>The region actively engages with the community and school leadership to best capture the meaningful school-level work that happens each day. This year the school continues their collaboration and consultation with various departments at the regional level to help inform goals, metrics, and outcomes including but not limited to: Operations, Facilities, Data, Human Resources, Finance, Special Education (including the SELPA), and Academics. This engagement includes budget reviews, school site walkthroughs, operational coaching, data analysis, and regular consultations that inform strategic annual planning and goal setting. The regional support team provides opportunities for all Northern California KIPP leaders to engage in professional development and share resources and best practices.</p>
School Community -	<p>School level LCAP planning and engagement begins in December in preparation for the updated CA Dashboard release, and includes updated presentation materials that allow the community to engage more equitably (multiple languages, diverse engagement styles and practices, etc.). There is additional Advocacy and Community Engagement (ACE Team) support at meetings and events to answer questions and engage in these important discussions. This involvement and availability strengthen trust and accountability between the KIPP organization, the school, and the community.</p> <p>KIPP takes steps to make governance structures more accessible to the school community. The drafted LCAP is made available for a public hearing in advance of the final June board meeting. Virtual teleconferencing is available for all of KIPP's public board meetings, and the community is notified in compliance with the Brown Act. Translation services are also available upon request. All KIPP board meeting agendas and minutes are available online at https://kipnocal.org/kip-board-of-directors/.</p>

Educational Partner(s)	Process for Engagement
SELPA -	The SELPA provides a review and feedback on KIPP's annual LCAP.
Bargaining Units -	As a charter school, KIPP is not required to engage, nor is it currently applicable, to consult with any local bargaining units of the LEA.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Engagement at KIPP -

We are so thankful to the families, staff and students that provided valuable feedback on how the school can improve student academic outcomes and school culture. The School Leader has provided a response to thank the community and share how their input has shaped the school's initiatives:

KIPP Excelencia maintains robust community engagement through systematic feedback collection and responsive program development. The school conducts listening tours with staff, families, and students to determine schoolwide priorities and inform policy shifts, complemented by monthly family input opportunities including coffee with the principal, family association meetings, and school events throughout the year.

Professional development reflects community input through three weeks of summer training focused on annual priorities and LCAP goals, plus four learning days during the school year for progress sharing and planning instructional shifts. Student voice contributes through surveys measuring school engagement, connectedness, interests, and relationships, ensuring student perspectives inform school improvement efforts.

Community feedback drives concrete programmatic changes. The bell schedule working group, comprising middle school teachers, mental health counselors, and education specialists, collected input leading to schedule modifications supporting instructional and culture goals aligned with LCAP objectives and California Dashboard priorities. English Language Development working group helped select current ELD curriculum and design additional newcomer supports while strengthening collective identity for multilingual learners.

Family survey responses specifically guide academic improvements. Professional development on academic monitoring ensures students receive lesson feedback and misconception correction opportunities. The school expanded intervention services with three reading interventionists and one ELD interventionist, partnering with Ignite for first-grade reading intervention serving 25 students. Afterschool programming increased to serve more students based on multilingual learner feedback, while middle school incorporated word morphology and fluency into tier one instruction.

Attendance and engagement improvements respond directly to family priorities. The school provides professional development in social-emotional learning, partners with county officials for families with chronic absenteeism, and considers making attendance the named priority for 2025-26. Teacher retention strategies ensure consistent, positive adult relationships, while expanded ELD staffing attempts to better serve ML students through small group instruction, demonstrating responsive leadership to educational partner input.

Additional 2025-26 LCAP influence:

The collective information shared during the annual LCAP process was used to reflect on the school's priorities. The feedback and data indicate that KIPP's mission continues to be in line with the goals of the school community. The results of the surveys along with feedback that we received during engagement/discussion indicated that we needed to continue to focus on the following in the 2025-26 LCAP:

- More 1 on 1 support from teachers for all students and Multilingual Learners to improve academic outcomes: This aligns with the "more time" model that KIPP provides students and families. KIPP will continue to support teachers in this level of student learning and engagement. Professional development, including weekly data driven initiative meetings and manager observation, will be provided that helps teachers identify and support the differentiated needs of students (Professional Development, Goal 1).
- Stronger student relationships between teachers/staff and students that are facing homelessness and or are in foster care: KIPP will leverage the Coordination of Services Team (COST) to identify resources and remove barriers for students. This may include access to KIPP's mental health supports (Mental Health Clinician, Goal 2) and access to teachers before and after school hours (More Time Action, Goal 3).
- Mental health for all: As a response to continued feedback for more holistic services across students and staff, KIPP will be continuing the services to support the mental health wellbeing for school and regional staff. This initiative is supported by a partnership between Headspace, Seneca and Mindshare, providing community focused, evidence-based, accessible mental health services for KIPP staff and KIPP staff partners/families (Mental Health for All, Goal 3).

Feedback is shared and incorporated regularly at KIPP. These above-listed actions/services were most evident based on the current year's engagement with families during the LCAP process and other family and school community events.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	All students will achieve academically.	Broad Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

To increase the rate of students who meet or exceed state standards in English language arts on the SBAC assessment.
 To increase the rate of students who meet or exceed state standards in mathematics on the SBAC assessment.
 To increase the rate of students who meet or exceed state standards in science on the CAST assessment.
 To increase the number of students making annual progress in English language learning.

*Metrics below were not yet fully measurable given the timing of data collection and the requirements for LCAP completion. LCAP metrics below instead reflect prior year data reporting in the designated year to capture a more complete annual metric, including SBAC ELA, SBAC Math, CAST Science, English learner reclassification and English learner progress.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1.1	SBAC ELA: State testing results for English Language Arts.	22-23 English language arts results for all students: 32% proficient, 46% district results 22-23 English language arts results for students qualifying as low-income students: 31% proficient, 29% district results 22-23 English language arts results for	Note: Starting in 2023-24, this reporting metric has been revised to compare testing results to the state standard. 23-24 English language arts results for all students: 33% proficient, 47.5		Maintain LOW on the CA Dashboard, with +10 points or greater increase YoY	

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
		<p>multilingual language learners: 9% proficient, 6% district results</p> <p>22-23 English language arts results for students with disabilities: 15% proficient, 19% district results 48.9 points below standard</p>	<p>points below standard</p> <p>23-24 English language arts results for students qualifying as low-income students: 33% proficient, 52.4 points below standard</p> <p>23-24 English language arts results for multilingual language learners: 13% proficient, 85.2 points below standard</p> <p>23-24 English language arts results for students with disabilities: 11% proficient, 116.3 points below standard</p>			
1.2	SBAC Math: State testing results for Mathematics.	<p>22-23 Math results for all students: 24% proficient, 37% district results</p> <p>22-23 Math results for students qualifying as low-income students:</p>	<p>23-24 Math results for all students: 27% proficient, 73 points below standard</p> <p>23-24 Math results for students</p>		Maintain LOW on the CA Dashboard, with +10 points or greater increase YoY.	

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
		<p>23% proficient, 18% district results</p> <p>22-23 Math results for multilingual language learners: 10% proficient, 6% district results</p> <p>22-23 Math for students with disabilities: 9% proficient, 17% district results</p> <p>68.5 points below standard</p>	<p>qualifying as low-income students: 26% proficient, 76.4 points below standard</p> <p>23-24 Math results for multilingual language learners: 16% proficient, 97.7 points below standard</p> <p>23-24 Math results for students with disabilities: 13% proficient, 136.4 points below standard</p>			
1.3	CAST Science: State testing for Science.	<p>22-23 Science results for all students: 20% proficient</p> <p>22-23 Science results for students qualifying as low-income students: 25% proficient</p> <p>22-23 Science results for multilingual language learners: 0% proficient</p> <p>22-23 Science results for students with</p>	<p>23-24 Science Results:</p> <p>*SED: socioeconomically disadvantaged</p> <p>** ML: multilingual learner/English learner</p> <p>***SWD: students with disabilities</p> <p>SED: 17% proficient</p> <p>ML: 5% proficient</p> <p>SWD: 0% proficient</p>		Status and performance on the CA Dashboard for CAST has not yet been established, but KIPP will strive for a Yellow + status as we continue to support a growing science focus.	

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
		disabilities: 21% proficient				
1.4	Multilingual Learner Reclassification Rate: The rate at which students who are classified as Multilingual Learners become proficient in the English Language, as measured by annual state and local assessments.	Reclassification is in progress for the 23-24 school year. The LCAP will be updated with reclassification metrics once available.	6.95% of students were reclassified as English proficient in the 24-25 school year.		20% of Multilingual language learners will be reclassified annually.	
1.5	English Learner Progress Indicator (ELPI): The rate at which English learners make progress toward English language proficiency.	36.6% Multilingual learners were making progress towards English proficiency in the 22-23 school year.	44.7% Multilingual learners were making progress towards English proficiency in the 23-24 school year.		Increase to MEDIUM on the CA Dashboard, with an increase of 3% YoY.	

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All planned actions were carried out in order to make progress towards the articulated goal. The implementation of these actions was consistent with the descriptions outlined in the adopted LCAP, with no substantive differences between the planned actions and their actual implementation.

One of the key successes was the increased focus on ELD, which was supported by regional resources and on-the-ground assistance. This heightened emphasis on ELD was facilitated through the establishment of additional Professional Learning Communities (PLCs) dedicated to sharing best practices and strategies for supporting English Language Learners. The PLCs provided leaders with valuable opportunities to

collaborate, learn from one another, and receive targeted guidance from ELD specialists. As a result, teachers were better equipped to meet the unique needs of their English Language Learners.

The school also faced some challenges, particularly in the area of special education and the increased support associated with providing the necessary resources and support for students with special needs. This included hiring additional special education teachers, paraprofessionals, and related service providers to ensure that students received the individualized support they required. The increased demand for special education services required careful allocation of resources to meet the needs of all students.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between the budgeted expenditures and the estimated actual expenditures and/or planned percentages of improved services and estimated actual percentages of improved services.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

KIPP relies on state testing results as the primary indicators in determining the level of progress towards meeting this academic outcome goal. KIPP administered the SBAC test for both English Language Arts (ELA) and Math as well as the required testing for Multilingual Learners through the ELPAC. The most recent results for 2023-24 school year demonstrate that there are lower than expected results for metrics in goal 1. The school remains committed to seeing improvement in this critical area and has revised some actions and services in order to support growth.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

After analyzing the data from the Dashboard and other local sources, as well as reflecting on current year practices, we have identified areas where changes will be made to the goal actions for the coming year.

Ellevation: We continue to standardize the use of a new system called Ellevation to better track the progress of our Multilingual Learners (MLs). This system will provide expanded features and more centralized and regional support to ensure that our MLs receive the targeted assistance they need to succeed. By closely monitoring their progress and providing tailored interventions, we aim to improve the academic outcomes of our ML students.

OneKIPP Eureka Squared Math Initiative: As part of our ongoing efforts to enhance our curriculum, we are continuing with the One KIPP math initiative, which launched a region-wide math curriculum called Eureka Squared. Eureka Squared is a comprehensive, research-based curriculum that aligns with state standards and provides students with a rigorous and engaging learning experience in mathematics. This curriculum is designed to foster deep conceptual understanding, develop strong problem-solving skills, and promote fluency in mathematical operations. Through a second year of Eureka Squared, we expect to see significant improvements in student achievement in math and help

close any existing gaps. The One KIPP math initiative will also provide our teachers with the necessary professional development and support to effectively integrate this new curriculum and ensure its success in the classroom.

EdTech: We are on year two of our educational technology systems revamp to provide the most focused and personalized learning opportunities for our students. By streamlining our EdTech resources and ensuring that they are aligned with our curriculum and student needs, we aim to create a more efficient and effective learning environment that promotes student success.

Community Schools Focus on Professional Development: In the coming year, we will be placing a strong emphasis on professional development related to our community schools initiatives. This will include providing additional support for multilingual learners and holistic support for students to improve their academic outcomes. By equipping our teachers and staff with the knowledge and skills necessary to effectively implement these initiatives, we expect to see increased student engagement, well-being, and academic achievement.

Medi-Cal for Special Education (Mental Health and Physical): Our Special Education department will be leveraging Medi-Cal to secure additional mental and physical health service reimbursements for students with Individualized Education Programs (IEPs). This change will create a more sustainable model for providing these critical services to our students with special needs. By ensuring that our students have access to the mental and physical health support they require, we aim to improve their overall well-being and academic success.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Support for multilingual learners:	<p>A KIPP administrator is trained to support the success of multilingual learner students (Levels 1-4, RFEP and LTELs) in meeting CA state standards, and to administer the ELPAC exam and other interim assessments in order to assess student progress in attaining proficiency in the English language and in finding success after reclassification. KIPP teachers are trained to use techniques and tools that maximized learning for multilingual learners at all points in their academic journey.</p> <p>As a recipient of the California Community Schools Partnership grant, the school has made additional investments in targeted, small group English development.</p>	\$624,464.09	Yes

Action #	Title	Description	Total Funds	Contributing
1.2	Special education services:	<p>KIPP offers an extensive special education program run by the Regional Support Office in partnership with the El Dorado County Charter SELPA and San Mateo SELPA. The special education department offers interventions for students with IEPs. Services and interventions include specialized academic instruction, language and speech therapy, adapted physical education, occupational therapy, counseling, psychological services, and behavior intervention services. Students with mild to moderate disabilities receive their services as a mix of push-in and pull-out support. Students with moderate to severe disabilities receive their services primarily in a small group, self-contained classroom with targeted mainstreaming appropriate to the student's individualized program. The program maintains a small student to staff ratio and uses a separate curriculum based on modified standards, CAPTAIN evidence-based practices, and community-based instruction. KIPP is committed to creating supportive and regionally-based classrooms for each grade band in order to make the program as accessible as possible.</p> <p>Medi-Cal: KIPP participates in the Medi-Cal Billing Options Program (BOP) and School-Based Medi-Cal Administrative Activities (SMAA) to provide support to students with disabilities.</p>	\$1,400,794.20	No
1.3	Personalized learning and EdTech:	<p>KIPP values innovation in the classroom and seeks to discover new methods of teaching students with diverse needs. By utilizing personalized learning approaches and assessments, KIPP can effectively monitor individual student progress and establish high expectations for achievement. To ensure the most accurate and meaningful engagement with these systems, a dedicated staff member provides support in the administration of EdTech tools.</p> <p>This individualized process, coupled with the reinforcement of high achievement standards, is designed to enhance student outcomes, engagement, and attendance. By tailoring the learning experience to meet the unique needs of each student, KIPP aims to create an environment that fosters academic success and encourages consistent participation in the educational process.</p>	\$97,650.71	No

Action #	Title	Description	Total Funds	Contributing
1.4	Professional development:	KIPP provides high quality professional development for all teachers, based on individual goals, school goals, and the needs of the students based on recent and relevant data. KIPP teachers and staff receive professional development as it relates to the new Common Core State Standards and Culturally Responsive Teaching (CRT) in order for teachers to implement them into classrooms and support students at all levels of proficiency.	\$362,500.11	Yes
1.5	Title III:	KIPP uses title III funds to support the salary of a title III consortium lead multilingual learner (ML) instructional coach. The duties of this position include the implementation of supplemental programming; training and facilitation of data meetings where teachers, APs, and instructional coaches review student data to drive instructional decisions and the effective implementation of ML instructional strategies; targeted coaching and feedback to schools and across schools through classroom observation; and identification of supplemental regional curricula and educational technology designed to improve outcomes for ML students (Levels 1-4, RFEP and LTELs) throughout all stages in their academic journey.	\$51,250.25	Yes
1.6	Data analysis and visualization:	The Data team provides data tools and resources that enable school staff to regularly review critical data, including grades, assignment completion, testing results, culture data, and attendance. Regular data reviews are crucial in identifying early interventions and support for KIPP students, the majority of whom qualify as socio-economically disadvantaged.	\$29,991.20	Yes
1.7	Small group reading focus:	KIPP focuses on improving reading proficiency through interventions that bring together small groups of students who are struggling with reading to receive targeted instruction and support. These interventions involve a teacher or reading specialist leading the group in engaging and interactive	\$176,134.51	Yes

Action #	Title	Description	Total Funds	Contributing
		reading activities that are designed to build reading skills and improve comprehension.		
1.8	Transitional Kindergarten:	KIPP funds a position which serves to improve the transitional kindergarten experience for KIPP's youngest students. This role is responsible for building KIPP's learning vision and strategy, along with programming for elementary schools, with a focus on TK and early childhood and developing and delivering high quality professional development and training to increase the effectiveness of teachers, coaches and content specialists supporting TK students. Additionally, this role serves as the resident expert at KIPP by holding a deep knowledge of TK-2 content, common core standards, instructional materials and resources.	\$48,575.49	
1.9				No

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	All students and families will be engaged with the school community.	Broad Goal

State Priorities addressed by this goal.

- Priority 3: Parental Involvement (Engagement)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

To increase parent engagement by sustaining or improving the number of opportunities for parental involvement.
 To increase school attendance rates and reduce chronic absenteeism rates.
 To keep students engaged and excited about school, increasing graduation rates, and decreasing suspensions and expulsions.
 To increase staff, student and family satisfaction with the school's climate.

*Some metrics below were not yet fully measurable given the timing of data collection and the requirements for LCAP completion. Select LCAP metrics below instead reflect prior year data reporting in the designated year to capture a more complete annual metric, including chronic absenteeism, suspensions, expulsions, and drop-out rates.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	Family Engagement Opportunities: Number of scheduled events in the school year where families and/or the community are invited to participate.	The school held 20+ scheduled events in the 23-24 school year where families and/or the community were invited to participate.	The number of events is to be determined and will be finalized in time for the final LCAP draft in June. KIPP is currently in the process of engaging the school on the		KIPP will host eight (8) events or more a year where families and/or the community are invited to attend and participate.	

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
			number of scheduled family engagement events for the 24-25 school year.			
2.2	Family Engagement Satisfaction: Annual school culture survey results where families share their satisfaction level with the available opportunities for involvement at the school.	76% of KIPP families were satisfied with the parent participation opportunities available at the school in the 23-24 school year.	58% of families would recommend KIPP to other families.		75% of KIPP families are satisfied with the participation opportunities available at the school.	
2.3	Student Average Daily Attendance: The average percent of students attending school daily.	KIPP reported 92.76% attendance for P2.	KIPP reported 93.95% attendance for P1.		95% average daily attendance or higher in the P2 reporting period.	
2.4	Student Chronic Absenteeism: Percent of students missing 10% or more of the enrolled school year.23-24 baseline data has been used to set 3 year goals.	SY: 23-24 KIPP tracked at 23% chronic absenteeism rate in the 23-24 school year for all students SED/FRL (low income students): 25% ML (multilingual learners): 24% SWD (students with disabilities): 35%	SY: 24-25 KIPP is tracking at 29% chronic absenteeism rate in the current school year for all students *SED/FRL = socioeconomically disadvantaged/qualifies for free reduced lunch		Reduce chronic absence to MEDIUM on the CA Dashboard, with 3% or greater reduction YoY

2.6	<p>Student Expulsions:</p> <p>The percent of students that have been expelled from school.</p>	KIPP's 22-23 expulsion rate was 0%.	KIPP's 23-24 expulsion rate was 0%.		1% or lower expulsion rate.	
2.7	<p>Drop Out Rate:</p> <p>Students who dis-enroll and do not re-enroll in another public, private or alternative program or school.</p>	NA	NA		2% or lower drop out rate.	
2.8	<p>School Safety:</p> <p>Annual school culture survey results: teachers and students share their perception of student's "emotional safety" at school.*Survey is anonymous and therefore demographic differentiation for responses is not possible to report.</p>	<p>In the 23-24 school year, 61% of students (TK-2: 74%, 3-8: 48%) surveyed responded positively in feeling a sense of emotional safety with school staff and peers.</p> <p>In the 23-24 school year, 31% of staff responded positively when asked about "having the resources to appropriately support our students' emotional and behavioral needs".</p>	<p>In the 24-25 school year, 86% of students surveyed responded positively in feeling a sense of emotional safety with school staff and peers.</p> <p>In the 24-25 school year, 50% of staff responded positively when asked about "having the resources to appropriately support our students' emotional and behavioral needs".</p>		65% of students and staff respond positively when asked about "students feeling/being safe at school" on an annual survey.	

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.10	<p>The School Family Culture Index represents questions from the Family School Culture Survey that make up the family school culture experience. The index considers the percent of positive family responses across the following questions:</p> <p>The teachers have built strong relationships with my child.</p> <p>The school has a positive impact on my child's academic performance.</p> <p>How fairly is your child treated by staff?</p> <p>How stressed does your child feel about experiences related?</p> <p>*Survey is anonymous and therefore demographic differentiation for responses is not possible to report.</p>	<p>In the 23-24 school year, 76% of surveyed KIPP families have had a positive experience with the school.</p> <p>In the 23-24 school year, 80% of surveyed KIPP families indicated that "the teachers have built strong relationships with my child".</p>	<p>In the 24-25 school year, 72% of surveyed KIPP families have had a positive experience with the school.</p> <p>In the 24-25 school year, 86% of surveyed KIPP families indicated that "the teachers have built strong relationships with my child".</p>		75%+ of families have a positive experience with the school.	

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All planned actions were carried out in order to make progress towards the articulated goal. The implementation of these actions was consistent with the descriptions outlined in the adopted LCAP, with no substantive differences between the planned actions and their actual implementation.

One of the key successes was the development and strengthening of supportive systems that fostered partnerships with families and helped re-establish expectations for regular attendance following the challenges posed by the pandemic. The school focused on the following strategies:

Enhanced communication with families: KIPP increased its outreach efforts to families, using various channels such as phone calls, emails, text messages, and home visits to communicate the importance of regular attendance and to provide support and resources as needed.

Collaboration with community partners: KIPP partnered with local community organizations to provide additional support to families facing challenges that could impact student attendance, such as housing instability, food insecurity, or lack of access to health care.

Data-driven interventions: KIPP used attendance data to identify students at risk of chronic absenteeism and implemented targeted interventions, such as mentoring programs, counseling services, and individualized attendance plans, to support these students and their families.

Even with these systems in place, both overall attendance rates and chronic absenteeism remain ongoing challenges, as the school did not achieve the significant improvements seen in the previous year. While the implemented strategies helped stabilize attendance patterns, this indicates the need for continued focus and potential refinement of intervention strategies to address the persistent barriers affecting regular student attendance.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between the budgeted expenditures and the estimated actual expenditures and/or planned percentages of improved services and estimated actual percentages of improved services.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

KIPP relies on chronic absence and suspension indicators in determining the level of progress towards meeting this engagement outcome goal. The most recent CA Dashboard results for 2023-24 and available local data for the 2024-25 school year demonstrate that there are mixed results for success across goal 2 metrics, but that results are continuing to trend positive with YoY improvement.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

After analyzing the data from the Dashboard and other local sources, as well as reflecting on our prior practices, we have identified areas where changes or improvements will be made to the goal actions for the coming year.

Advanced Home/Porch Visits: In the upcoming year, our attendance team, in collaboration with the community school managers, will be supporting advanced "porch visits" for students who are not attending school regularly and may be identified as needing additional support. These visits will provide an opportunity for our staff to engage with students and their families in a more personal and supportive manner, helping to identify and address any barriers to regular attendance. By building stronger relationships with families and providing targeted interventions, we aim to improve attendance rates and reduce chronic absenteeism.

Coordination of Services Team (COST): We will be further standardizing and improving the Coordination of Services Team (COST) to support students and families in accessing the resources they need to thrive. COST will review academic and school culture data to identify students who may benefit from differentiated support and will work collaboratively with families, teachers, and community partners to provide targeted interventions. By adopting a holistic approach to student support, we aim to improve academic outcomes, enhance student well-being, and create a more inclusive and equitable learning environment.

Community Schools: Community school managers will identify and coordinate support services for students and families as part of our Community Schools initiative. These community managers will work closely with local organizations and service providers to connect families with resources such as food assistance, housing support, legal counseling, employment services, and other vital resources. By addressing the diverse needs of our students and their families, we aim to create a more supportive and inclusive learning environment that promotes academic success and overall well-being.

Medi-Cal Reimbursement for Mental Health Services: In the coming year, we will be focusing on maximizing Medi-Cal reimbursement for the mental health care services provided to our students. By leveraging this funding source, we aim to create a more sustainable and comprehensive mental health support system. The reimbursement funds will be reinvested in our mental health professionals. This will allow us to continue to provide individualized and intensive support to students who are struggling with mental health challenges, as well as to implement preventative and early intervention programs to promote overall student well-being.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Family involvement and support:	KIPP encourages families to be active members of the school by providing multiple opportunities for participation and engagement, such as the KIPP Family Association, LCAP meetings, and student productions to showcase	\$115,102.65	Yes

Action #	Title	Description	Total Funds	Contributing
		talent. The Advocacy and Community Engagement (ACE) team works to disrupt racial and socioeconomic inequalities in educational access and outcomes by fostering an inclusive culture of family engagement, building a support network of community-based organizations, and empowering families to be advocates for their children and communities. The school's dedicated ACE team member provides focused coaching and feedback, collaborates on community outreach, and develops strategies to increase parent participation.		
2.2	Improve attendance:	The school administration recognizes the importance of improving regular attendance and has assigned dedicated staff to spearhead the effort. The school has implemented a series of "parents as partners" initiatives that aim to foster a sense of belonging and connection to the school among families. Key strategies include making live, personal phone calls to the family of any student who is absent, sending personalized mailed communications in families' home languages to encourage them to prioritize attendance, and scheduling intervention meetings between school staff and families to collaboratively address attendance concerns.	\$15,086.00	Yes
2.3	Communication resources:	KIPP demonstrates a continued commitment to the "more time" model that supports struggling students by providing communication resources to facilitate interaction between teachers and students/families. KIPP staff are issued work cell phones, and students and families also have access to teachers through email and the ParentSquare messaging system. These resources allow for calls and other contact outside of the regular school day, enabling students/families to get the additional support needed to make progress on coursework and helping to build meaningful relationships between staff and families.	\$42,974.39	Yes
2.4	Improving school climate:	Social emotional learning (SEL) is a critical component of KIPP's model that focuses on developing students' emotional intelligence, self-awareness, self-regulation, social awareness, and relationship skills. KIPP provides SEL instruction and opportunities for students to practice these skills, helping to further develop the resilience, empathy, and communication skills students need to thrive in school and beyond.	\$111,265.06	Yes

Action #	Title	Description	Total Funds	Contributing
		Additionally, KIPP aims to create a positive and inclusive school culture where students feel safe, respected, and connected to their peers and teachers.		
2.5	Mental health clinician:	The mental health clinician plays a critical role in providing on-site culturally responsive and trauma-informed mental health and socioemotional support to students on campus. These clinicians offer a range of services, including psychotherapeutic interventions, behavioral supports, teacher coaching and mental health treatment services such as counseling, consultation, treatment, and case management for students receiving either Educationally Related Mental Health Services or general education counseling.	\$180,624.19	Yes
2.6	Community Schools:	<p>KIPP has received implementation grant funding from the California Community Schools Partnership Program (CCSPP) as a part of Cohort 2 and will spend the next five years and efforts on implementing these initiatives that are specifically aligned with the Four Pillars of Community Schools - 1. Integrated Student Supports; 2. Expanded and Enriched; 3. Learning Time and Opportunities; 4. Collaborative Leadership and Practices. Research has shown that full-service community schools are an effective place-based strategy to meet the educational needs of high need students, especially students who come from historically underserved, impoverished communities. Community school interventions have shown to have a positive impact on various outcomes: academic achievement, high school graduation, attendance, and overall, improved wellbeing and a sense of self. Students and families also feel more supported by their community and more empowered; they're equipped with the right tools and resources needed to lead productive fulfilling lives.</p> <p>Regional Collaborative Care and Support Managers (CCSMs) will be hired with CCSPP funds to champion our whole child approach, boost student behavior health, and align resources across teams, schools, and</p>	\$69,000.17	No

Action #	Title	Description	Total Funds	Contributing
		community partners. CCSMs will serve as: the main drivers behind needs assessment work, project managers overseeing the implementation of community schools initiatives, resource managers, act as participants and leaders of the coordination of services; and lastly, they will manage Coordination of Service referrals.		

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	All students will have the spaces, resources and opportunities to achieve.	Broad Goal

State Priorities addressed by this goal.

<p>Priority 1: Basic (Conditions of Learning) Priority 7: Course Access (Conditions of Learning)</p>

An explanation of why the LEA has developed this goal.

<p>Increase or maintain the rate of students who have access to common core aligned materials. Increase or maintain the rate of teachers who feel they receive adequate professional development. Increase or maintain the rate of students that have access to a full and rigorous course schedule. Ensure that facilities are maintained and in good condition. Increase or maintain the rate of teachers who are credentialed.</p>

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
3.1	Teacher Resources: Annual teacher survey results: teacher satisfaction with access to current, standards-aligned instructional materials for their classrooms.	KIPP teachers reported 51% satisfaction (TK-4: 58%, 5-8: 44%) with student's access to rigorous academic curriculum in the 23-24 school year.	KIPP teachers reported 54% satisfaction (TK-4: 68%, 5-8: 50%) with student's access to rigorous academic curriculum in the 24-25 school year.		KIPP teachers report 75% or higher satisfaction with access to standards-aligned materials for their classrooms in an annual survey.	
3.2	Teacher Professional Development: Annual teacher survey results: teacher	KIPP teachers reported 76% satisfaction (TK-4: 90%, 5-8: 61%) with the school's commitment to improving their	KIPP teachers reported 70% satisfaction with the school's commitment to		KIPP teachers report 75% or greater satisfaction with the school's commitment to

			is gauged by data from the Spring TNTP survey. KIPP will have this data available in the final LCAP draft to be presented in June to the board.			

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

All planned actions were carried out in order to make progress towards the articulated goal. The implementation of these actions was consistent with the descriptions outlined in the adopted LCAP, with no substantive differences between the planned actions and their actual implementation.

Successful Transition to Headspace for Staff Mental Health Services: Recognizing the importance of staff well-being and its impact on student success, KIPP made a strategic shift in our approach to mental health services for employees. We partnered with Headspace, a leading provider of mindfulness and meditation resources, to offer a comprehensive mental health initiative for staff. This change in providers was based on feedback from employees and the growing need for accessible and effective mental health support. By providing staff with the tools and resources to manage stress, enhance resilience, and promote overall well-being, KIPP aims to create a more positive and supportive work environment that ultimately benefits students.

Arts and Music Programming: KIPP recognizes the critical importance of comprehensive arts and music programming in supporting student development across multiple domains. Research demonstrates that exposure to arts education during key developmental stages significantly enhances academic achievement, fine and gross motor skill development, creative thinking, and self-expression capabilities. These programs provide essential opportunities for cognitive growth, social-emotional learning, and self-esteem building through creative exploration and artistic expression. Through diverse offerings including music, dance, visual arts, and performance opportunities, students gain access to safe, supportive environments where they can explore their individual talents, express their perspectives, and develop confidence in their creative abilities. The continued expansion of arts programming reflects KIPP's commitment to providing well-rounded educational experiences that nurture the whole child while creating additional pathways for student engagement, cultural appreciation, and personal growth that complement and enhance traditional academic learning.

Staffing Constraints: The main challenge faced was being under-hired in various positions. The nationwide labor shortage and the competitive job market in the region made it difficult for KIPP to fill all vacant positions, despite ongoing recruitment efforts. This understaffing put additional strain on existing staff members, who had to take on additional responsibilities and workload to compensate for the gaps.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Arts and Music:

Material differences for this goal are accounted for by the receipt of California Proposition 28 Arts and Music Education funding, which was not anticipated or included in the original LCAP budget projections. These additional state funds have enabled KIPP to substantially expand arts and music programming capacity beyond what was initially planned, including enhanced staffing, instructional materials, equipment purchases, and program development initiatives. The Proposition 28 funding allows for material investments in qualified arts and music educators, musical instruments, art supplies, performance spaces, and professional development that significantly strengthen the scope and quality of creative programming available to students. This funding represents a substantial augmentation of resources dedicated to arts education that enhances the school's ability to provide comprehensive, high-quality creative learning opportunities while maintaining fiscal responsibility within the overall budget framework. The material difference reflects strategic leveraging of state funding to advance student access to arts and music education in alignment with the school's commitment to well-rounded educational programming.

Material Differences - Staffing:

KIPP had allocated funds in the budget to cover the salaries and benefits of the planned staffing levels across various departments and programs. However, due to the persistent staffing and hiring constraints, the school was unable to fill all the vacant positions as intended. To address this challenge, KIPP deployed leadership positions, such as principals, assistant principals, and instructional coaches, to fill the gaps in teaching and support roles. Additionally, KIPP relied more heavily on substitute teachers to ensure continuity of instruction.

The staffing issues posed challenges to providing the Planned Percentages of Improved Services to students. However, KIPP's strategy of deploying leadership positions and substitutes to fill the staffing gaps helped to mitigate the impact on the quality and consistency of services. By having experienced educators, such as principals and instructional coaches, step into teaching and support roles, the school was able to maintain a higher level of instructional quality and student engagement than would have been possible with a more severe staffing shortage. These leaders brought their expertise and knowledge of best practices to the classroom, ensuring that students continued to receive high-quality instruction and support.

Similarly, the increased use of substitutes, particularly those with long-term assignments, helped to provide continuity and stability in the learning environment. While the use of substitutes may not have fully matched the level of services provided by permanent staff, it allowed KIPP to maintain essential functions and support for students.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

KIPP reviews multiple metrics to determine if the actions and services have been effective in meeting our resource goal. KIPP’s largest financial investment is the instructional staff that are responsible for student learning. We believe that when teachers feel supported in their instructional practice and are aligned with the academic curriculum, teachers will be retained at a higher rate and result in more continuity for students and families year over year. The most recent results for 2025-26 demonstrate that the majority of the metrics for success have been met and are continuing to trend positive with YoY improvement. These results and important feedback will continue to be incorporated into strategic instructional planning, school scheduling and hiring for the upcoming school year. KIPP recognizes that multiple teams need to support and plan in order to ensure that appropriate time is held for coaching and academic content internalization for teaching staff.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

After analyzing the data from the Dashboard and other local sources, as well as reflecting on our prior practices, we have identified areas where changes or improvements will be made to the goal actions for the coming year.

The One KIPP initiative focuses on establishing a cohesive and aligned academic experience across all schools. This includes a consistent, high-quality curriculum in core subjects, data-driven instruction, and robust supports for teachers. Emphasis is placed on building foundational literacy and numeracy skills, fostering joyful learning environments, and promoting strong school culture to ensure students are on track for college readiness.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Hiring process:	KIPP implements a rigorous hiring process, which includes screening, formal and informal interviews, performance tasks, curricular and teacher materials review, teaching demonstrations, and reference checks by a dedicated team.	\$92,723.20	Yes
3.2	Title I and II, improving academic outcomes:	KIPP teachers receive observation, coaching, and support from school leadership to improve outcomes for students, with a focus on students identified as needing additional interventions. This development and	\$369,989.97	Yes

Action #	Title	Description	Total Funds	Contributing
		<p>coaching is customized, supporting both the students and the teachers' growth and development.</p> <p>Per allowable uses, KIPP transfers Title II funding allocations to Title I to optimize this coaching and teacher development strategy. This combined total is \$375,134.71.</p> <p>Title I totals \$X Title II totals \$X</p>		
3.3	Teacher Pathways:	<p>KIPP Public Schools strengthens educator development through California CTC grant-funded initiatives and CTC grant-funded initiatives and other local investments that eliminate financial barriers for diverse teaching candidates. Our Teaching Residency Program and Classified-to-Teacher Pathway provide comprehensive support including resident stipends, examination fees, and full credentialing costs. This funding extends to existing campus substitutes and teachers with non-credentialed or short-term credentials, creating advancement opportunities for all staff. KIPP has invested in dedicated personnel who guide participants through credential transitions while offering housing assistance and onboarding support. This ongoing funding initiative ensures all educators receive the necessary resources to deliver exceptional instruction, creating sustainable pathways that address teacher shortages while building a diverse, well-prepared teaching force committed to student success.</p>	\$150,607.00	No
3.4	Resources:	<p>KIPP prioritized the need for excellent resources and provided teachers with the supplies, learning tools and technology that they needed to teach Common Core curriculum in the classroom successfully. To implement Common Core standards, KIPP has adopted the nationally rolled out, data-driven, evidence based OneKIPP initiative that includes more access to resources, materials, and templates available to the larger KIPP network.</p> <p>The annual selection process for these materials required a robust, in-depth review of student performance data by subgroup and included many</p>	\$442,752.54	No

Action #	Title	Description	Total Funds	Contributing
		learning modalities, including reading materials, text books, planners, classroom equipment, testing materials and more. Only materials that could meet the needs of all students were selected and used to bring all student subgroups to the highest level of achievement.		
3.5	More teacher time:	In an effort to close academic gaps, KIPP teachers spend more time instructing students than is required by the state. All teachers commit to this increased instructional time, and KIPP offers competitive teacher salaries to support this "more time" model.	\$440,961.28	Yes
3.6	Custodial and facility staff:	KIPP prioritized creating a safe, clean and welcoming learning environment. KIPP continued strict cleaning and disinfecting procedures that were developed as a result of the COVID-19 pandemic in alignment with CDC health and safety standards. KIPP invested in additional equipment including disinfectant wipes and hand washing station supplies, and in additional training for janitorial staff to ensure that high cleaning standards were met.	\$297,933.68	No
3.7	Facilities and emergency procedures:	KIPP invested in the maintenance (repairs, security, rent, utilities) of school buildings to keep them at the standard that all students deserve. KIPP had procedures for emergencies to ensure the safety of students and staff -- including a comprehensive school safety plan that included fire, earthquake, intruder and infectious diseases procedures. Regular maintenance reviews ensured that issues were identified and addressed as quickly as possible.	\$754,059.31	No

Action #	Title	Description	Total Funds	Contributing
3.8	KIPP teachers:	<p>KIPP is committed to providing high quality teachers by offering competitive teacher salaries that allow us to attract a capable and diverse staff.</p> <p>Teachers have the most direct, sustained contact with students. Research suggests that, among school-related factors, teachers matter most. When it comes to student performance on reading and math tests, a teacher is estimated to have two to three times the impact of any other school factor, including services, or facilities. Therefore, teachers who work at KIPP must have strong and positive recommendations, evidence of strong connections with students and their families, must be team players, flexible, smart, community service oriented, embody and exemplify the values of the school, and be committed to the vision and mission of KIPP.</p>	\$3,767,611.54	No
3.9	Personal learning technology devices:	<p>KIPP is committed to continuing access to technology by providing each student with a Chromebook. These devices have been integrated into the learning experience, enabling students to research, collaborate, and create. They provide access to a wealth of educational resources, including online textbooks, interactive learning platforms, and educational applications.</p>	\$204,204.77	Yes
3.10	Health and safety:	<p>KIPP's focus has been on reducing risk by layering strategies that protect the health and safety of our students and staff.</p> <p>All students deserve healthy spaces where they can learn and thrive.</p>	\$6,500.00	No
3.11	Support for new teachers:	<p>Teachers new to KIPP receive an additional week of dedicated professional development and onboarding to best prepare them to support students. Additional support includes high-quality dedicated coaching where new teachers have the opportunity to apply what they learned, gain</p>	\$105,680.71	Yes

Action #	Title	Description	Total Funds	Contributing
		hands-on experience in real classrooms, differentiated instruction, and working directly with diverse learners in a supervised context.		
3.12	Expanded enrichment opportunities:	<p>KIPP schools serve as safe and accessible spaces for students by providing at least nine hours of on-campus opportunities daily. Morning on-campus activities may include access to breakfast, teacher and staff support, as well as early drop-off for busy families. After school activities may include enrichments, clubs, tutoring, sports, or other extracurricular activities.</p> <p>KIPP also provides intersession opportunities during non-school days.</p>	\$1,560,090.82	Yes
3.13	KIPP Contributions	The KIPP 401(k) Plan is designed to help KIPP employees save for the future by making 401(k) contributions on a tax-advantaged basis. For employees who make 401(k) salary deferral contributions, KIPP Northern California makes matching contributions to the account based on the 401(k) contributions each pay period, helping employees grow their money over time.	\$228,966.17	Yes
3.14	Continuity of Learning:	KIPP employs multiple direct financial strategies to support increased teacher retention, including intent to return bonuses, as well as increased stipends for teaching staff that provide in-house teaching substitution. These strategies aim to ensure continuity of learning for students by fostering a stable teaching environment and addressing the challenges of teacher absences.	\$87,334.65	Yes
3.15	Mental Health for All:	The mental health for all initiative focuses on supporting the mental health of KIPP staff through new holistic resources, supports, and training. Staff receive access to fast, dependable connections to mental health	\$7,804.00	Yes

Action #	Title	Description	Total Funds	Contributing
		professionals for benefit-eligible staff and dependents, as well as a learning platform through Headspace 12 therapy sessions annually for benefit-eligible staff and dependents at no cost; opportunities for input through an organization-wide survey to inform how to better integrate mental health into KIPP's people culture strategy; role-based training for all leaders across the region; and the formation of a region-wide Mental Health Workgroup.		
3.16	Transportation Resources	In alignment with KIPP's "Every Seat, Every Day" priority which aims to reduce chronic absenteeism and promote attendance, KIPP offers transportation resources to students, especially our highest needs pupils, to help them get to school. Research from the Urban Institute's 2017 comprehensive study "On the Road to School: Helping Children Succeed by Addressing Transportation Barriers" demonstrates that transportation barriers significantly impact student attendance, with economically disadvantaged students missing up to three more days of school annually compared to their peers with reliable transportation. As shown by this evidence, transportation resources—including bus passes, dedicated school bus routes, and transportation vouchers—effectively encourage greater attendance and improved academic outcomes by alleviating family stresses over transportation logistics, particularly for working parents with scheduling constraints or limited vehicle access. These resources reduce inequitable commute barriers such as geographic isolation, promote enhanced student safety during daily travel, and create consistency in daily routines that benefit student well-being. By providing transportation support, students—especially those with higher needs—arrive more prepared and ready to learn, demonstrate increased participation in extracurricular and enrichment activities, and engage more fully in school activities and community forums. This initiative reinforces KIPP's commitment to the fundamental message that every student's presence, participation, and progress is valued in the school community.		Yes
3.17	Arts and Music	KIPP allocates public funding for Arts and Music programs to provide equitable access for all students, especially those with limited prior	\$124,501.50	

Action #	Title	Description	Total Funds	Contributing
		<p>exposure. Research by Rabkin and Redmond shows arts education positively impacts school engagement, academic achievement, motor skills, cognitive functioning, emotional wellbeing, and self-esteem. Through diverse creative outlets, students express, explore, experiment, and reflect. These programs directly support KIPP's mission of creating "joyful, academically excellent schools" that prepare students with skills and confidence for their chosen paths, while aligning with the "whole child" approach and the LCAP goal of academic achievement for all students. Specifically, Prop 28 and Measure U funding enables arts and music programs that create joyful learning environments through creative expression and community celebrations. These programs foster academic excellence by enhancing critical thinking, pattern recognition, and problem-solving skills that transfer across subjects. Students develop crucial confidence through performances, collaborative projects, and the discipline of creative practice—skills essential for their chosen paths beyond KIPP. Arts education supports the "whole child" by nurturing social-emotional development, physical coordination, cultural awareness, and healthy emotional expression. Furthermore, these programs advance LCAP academic achievement goals through improved attendance, engagement, focus, and growth mindset, ensuring all students benefit equitably regardless of background.</p>

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	<p>Action: Support for multilingual learners:</p> <p>Need: KIPP has a higher population of multilingual learners than the state of California but is still working towards meeting comparable state results for English Learner Progress (ELPI).</p>	Multilingual learners may face unique challenges in the classroom, such as difficulty understanding instruction, limited English vocabulary, and cultural differences that may impact their learning experience. These challenges can hinder academic progress. By providing these additional supports, KIPP can help multilingual learners succeed academically and reach their full potential. This not only benefits the individual students but also contributes to the overall success of the school and the broader community.	ELPI and reclassification results.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>An ELD teacher’s expertise in language development theory, instructional methods, and assessment practices ensure that these students receive the focused attention they need to effectively access grade-level content across all subject areas. Moreover, the ELD teacher collaborates closely with general education teachers to ensure appropriate accommodations and differentiated instruction, creating an inclusive learning environment that promotes academic success for all students.</p> <p>Scope: LEA-wide</p>		
1.4	<p>Action: Professional development:</p> <p>Need: KIPP’s majority student population qualify as socioeconomically disadvantaged. Recent state testing results (2022-23) for socio-economically disadvantaged exceeded or met the results of the authorizing district.</p> <p>Scope: LEA-wide</p>	<p>Teachers who participate in effective professional development programs gain new skills, knowledge, and strategies that help them better support students with the highest needs. For example, professional development provides teachers with training in culturally responsive practices, differentiated instruction, and strategies for working with students who have experienced trauma. This supports teachers in better understanding and meeting the needs of unique student experiences, and ultimately leading to improved academic achievement and better outcomes.</p> <p>KIPP is dedicated to seeing growth and will allocate dedicated time to professional development to improve results, as research indicates that sustained, intensive professional development focusing on specific instructional</p>	State testing results - ELA and Mathematics with a focus on socioeconomically disadvantaged pupils.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>practices and content knowledge is associated with improved student achievement (Darling-Hammond et al., 2017; Yoon et al., 2007). By allocating significantly more time to professional development compared to the district, with 10+ fully dedicated days for all teachers, KIPP demonstrates its investment in its teachers' continuous growth and improvement. This increased time allows for deeper exploration of effective teaching strategies, data analysis, and collaboration among educators, which in turn leads to better-equipped teachers who can more effectively meet the diverse needs of their students (Desimone, 2009). Given that the total number of professional development days is significantly higher than the district and the development approach is focused on KIPP's highest-need students, this action will contribute to increasing services to teachers and therefore improving academic achievement and engagement for the school's unduplicated students, such as those who are socioeconomically disadvantaged and/or multilingual learners.</p>	
<p>1.5</p>	<p>Action: Title III:</p> <p>Need: KIPP has a higher population of multilingual learners than the state of California but is still working towards meeting comparable state results for English Learner Progress (ELPI).</p> <p>Scope:</p>	<p>ELPI and reclassification results.</p>	<p>Research has shown that targeted professional development and coaching for teachers can significantly improve the effectiveness of instruction for multilingual learners (Darling-Hammond et al., 2017; Garet et al., 2001). By providing training and</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide		<p>facilitating data meetings where teachers, APs, and instructional coaches review student data, the ML instructional coach enables data-driven instructional decisions and promotes the effective implementation of ML instructional strategies. This approach aligns with evidence-based practices that emphasize the importance of using data to inform instruction and support student learning (Hamilton et al., 2009). Furthermore, the ML instructional coach's targeted coaching and feedback through classroom observations ensures that teachers receive individualized support to improve their practice, which has been shown to be an effective method for enhancing teacher quality and student outcomes (Joyce & Showers, 2002; Knight, 2007). The identification of supplemental regional curricula and educational technology designed specifically to improve</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
			outcomes for ML students further demonstrates KIPP's commitment to providing high-quality, evidence-based resources for student learning.
1.6	<p>Action: Data analysis and visualization:</p> <p>Need: The majority of KIPP students qualify as socio-economically disadvantaged. According to a report by the National Center for Education Statistics, these students are more likely to face academic challenges such as lower proficiency levels, higher dropout rates, and lower college enrollment rates than their higher-income peers.</p> <p>Scope: LEA-wide</p>	By regularly reviewing critical data such as grades, testing results, and attendance, KIPP can identify early warning signs of academic struggles and provide targeted interventions. KIPP data demonstrates that socio-economically disadvantaged students meet more thresholds for intervention than all other students. These data analysis and visualization tools help school teams better understand a student's holistic experience at school, support increased identification of early and meaningful interventions, and improve the number of services to the school's unduplicated student population (students qualifying as socioeconomically disadvantaged).	State testing results - ELA and Mathematics. Attendance and chronic absence results With a focus on socioeconomically disadvantaged students on both data results.
1.7	<p>Action: Small group reading focus:</p> <p>Need: The literacy gaps in KIPP's most vulnerable populations, Black Student Learners, Multilingual Language Learners, and Student Learners with Disabilities, are the largest when compared to "all students."</p>	Literacy Tier 1 instruction aims to address the gaps in word recognition in order to increase language comprehension and ultimately, reading comprehension. Research has consistently shown that explicit, systematic instruction in phonemic awareness, phonics, fluency, vocabulary, and comprehension strategies is effective for improving reading skills in all students, including those who are struggling readers (National Reading Panel, 2000; Foorman et al., 2016). By providing targeted	State testing results - ELA.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Scope: LEA-wide</p>	<p>small group instruction that focuses on these essential components of reading, KIPP is implementing evidence-based practices that have been shown to benefit all students, regardless of their background or learning needs. Furthermore, by ensuring that these support programs are culturally responsive and tailored to meet the unique needs of the school's student population, KIPP is addressing the importance of culturally relevant pedagogy in promoting academic success for all students (Ladson-Billings, 1995; Gay, 2010). KIPP's daily focus on reading and additional opportunities to learn and practice are prioritized for students facing the widest learning gaps, ultimately increasing and improving services for the school's unduplicated student population (multilingual learners, socioeconomically disadvantaged, other subgroups identified by KIPP). However, these evidence-based practices and the emphasis on culturally responsive teaching also serve to benefit all students by creating a more inclusive and effective learning environment that supports the development of strong literacy skills.</p>	
<p>1.9</p>	<p>Action:</p> <p>Need: Multilingual learners have experienced a decline in multiple performance indicators (ELA, Math, Suspensions and ELPI).</p> <p>The school has a large population of multilingual learner students. Focusing on this group aligns with the school's demographics</p>	<p>Improving the performance of multilingual learner students can have a positive ripple effect on the entire school. Effective strategies and interventions for multilingual learners could create a more inclusive and supportive learning environment for all students.</p> <p>KIPP will select a high quality curriculum to implement schoolwide for both designated and integrated ELD. Successful implementation will include master schedule adjustments, professional development and ongoing teacher coaching and</p>	<p>State testing results - ELPI, ELA and Math for multilingual learners.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>and addresses the needs of a significant portion of the student body.</p> <p>Scope:</p>	<p>progress monitoring and support from the regional team.</p>	
<p>2.1</p>	<p>Action: Family involvement and support:</p> <p>Need: Increasing family involvement can have a significant positive impact on the academic achievement and social-emotional development of students who qualify as socioeconomically disadvantaged. When families are actively involved in their children's education, it can lead to improved academic performance, increased motivation, better attendance, increased engagement, and improved social-emotional well-being. By working together with families, schools can help create a more equitable and inclusive education system that greatly benefits the highest need students while also seeing improvement for all students.</p> <p>Scope: LEA-wide</p>	<p>The actions taken by KIPP to encourage family involvement have been specifically tailored to support families with additional needs, such as flexible and varied event times and opportunities, translated and accessible materials, and dedicated ACE staff. These actions increase and improve services for the school's unduplicated student population, which includes students who qualify as socioeconomically disadvantaged and multilingual learners. Family involvement helps create a supportive home environment that reinforces the importance of education, which helps children stay on track with their school work. When parents and family members are involved in their children's education, students feel more supported and encouraged to do well in school, which can help increase student engagement and motivation to succeed academically. Additionally, family involvement can help improve student attendance and foster positive social-emotional development. By providing these services on an LEA-wide or schoolwide basis, KIPP ensures that all students, particularly those from disadvantaged backgrounds, benefit from the positive outcomes associated with increased family involvement in education.</p>	<p>Family engagement opportunities, family engagement satisfaction survey results.</p>
<p>2.2</p>	<p>Action: Improve attendance:</p>	<p>The school takes a non-punitive, personal approach to build strong relationships and understand the unique circumstances of each</p>	<p>Chronic absence and average daily attendance rates with a focus on</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Need: While the school continues to make significant gains in reducing chronic absence, over 20% of students that qualify as socioeconomically disadvantaged are still chronically absent. Regular attendance is crucial for students to fully participate in classroom activities, engage with teachers and peers, and receive necessary academic and social-emotional support.</p> <p>Scope: LEA-wide</p>	<p>family. These additional supports are intended to improve attendance for KIPP's highest needs students, and with this focus, the school anticipates improved attendance across all students. The increased opportunities and personal connections/touch points with families contribute to increasing services for the school's high unduplicated student population.</p> <p>By providing personalized support and building strong relationships with families, the school is implementing evidence-based practices that have been shown to improve attendance. A report by Attendance Works (2017) emphasized the importance of implementing multi-tiered systems of support (MTSS) that provide targeted interventions for students with attendance challenges. The report also highlighted the effectiveness of strategies such as positive messaging, family engagement, and data-driven decision making in promoting regular attendance. By focusing on improving attendance for its highest-need students and providing these services on an LEA-wide or schoolwide basis, KIPP ensures that all students, particularly those from disadvantaged backgrounds, benefit from the positive outcomes associated with regular attendance.</p>	<p>socioeconomically disadvantaged students.</p>
<p>2.3</p>	<p>Action: Communication resources:</p>	<p>The accessible touchpoints between KIPP teachers and students/families provided through communication resources can improve students' engagement and motivation, leading to better academic outcomes. Research has shown that strong teacher-student relationships are</p>	<p>Family school culture index and student / teacher relationships results.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Need: KIPP has seen promising results on the school culture index, which represents questions from the Family School Culture Survey that make up the student and family experience. While these results are currently positive, KIPP wants to continue to focus on activities that support connection due to the high number of students that qualify as socioeconomically disadvantaged.</p> <p>Expanded learning time initiatives have demonstrated great promise in improving academic outcomes among students who are most likely to fall behind. Building positive relationships between teachers and students is crucial for creating a supportive and safe learning environment that encourages engagement and motivation. This is particularly important for students who may lack support at home or have experienced trauma or stress that may affect learning.</p> <p>Scope: LEA-wide</p>	<p>associated with increased student engagement, higher academic achievement, and better social-emotional outcomes (Roorda, Koomen, Spilt, & Oort, 2011). Furthermore, a meta-analysis by Hattie (2009) found that teacher-student relationships have a significant positive effect on student learning.</p> <p>Providing opportunities for extended learning time and facilitating communication between teachers and students/families is particularly beneficial for unduplicated student populations, such as those who qualify as socioeconomically disadvantaged. A report by the National Center on Time and Learning (2015) highlighted the effectiveness of expanded learning time programs in improving academic outcomes for disadvantaged students, noting that these programs can help close achievement gaps and promote educational equity.</p> <p>By offering communication resources and opportunities for extended learning time on an LEA-wide or schoolwide basis, KIPP ensures that all students, particularly those from disadvantaged backgrounds, have access to the support and resources they need to succeed academically. This approach is supported by research emphasizing the importance of providing comprehensive, schoolwide interventions to address the needs of struggling students (Borman, Hewes, Overman, & Brown, 2003; Sailor et al., 2006).</p>	
2.4	<p>Action: Improving school climate:</p>	<p>Social-emotional learning practices require a larger, whole-school initiative to truly support those who are most vulnerable, as all students, staff, and</p>	<p>Student suspension rates, with a focus on</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Need: Suspension rates remain higher for KIPP students that qualify as socioeconomically disadvantaged students compared to “all KIPP students,” as reported on the CA Dashboard.</p> <p>Students who attend KIPP may face challenges including food scarcity, unstable living conditions, limited access to essential resources, and sometimes even severe trauma. Supporting a restorative approach to behavioral interventions and leveraging strong social-emotional instruction ensures KIPP is working with students and families to develop trust, empathy, and strong relationships that lead to better outcomes for students.</p> <p>Scope: LEA-wide</p>	<p>leaders participate in shared learning and actions, such as morning community circles, restorative practices, chants, and restorative attendance conferences. Research has consistently shown that SEL programs have a positive impact on students' academic performance, behavior, and mental health (Durlak, Weissberg, Dymnicki, Taylor, & Schellinger, 2011; Taylor, Oberle, Durlak, & Weissberg, 2017). A meta-analysis by Durlak et al. (2011) found that students who participated in SEL programs demonstrated significant improvements in social and emotional skills, attitudes, behavior, and academic performance compared to students who did not participate in such programs.</p> <p>SEL programs have been found to be particularly beneficial for students who qualify as socioeconomically disadvantaged and those who have experienced trauma (Jagers, Rivas-Drake, & Williams, 2019; Jennings & Greenberg, 2009). By providing SEL instruction and support on an LEA-wide or schoolwide basis, KIPP ensures that all students, particularly those who are most vulnerable, have access to the resources and support they need to develop essential social and emotional competencies. This approach aligns with research highlighting the importance of implementing comprehensive, schoolwide SEL initiatives to create a positive school climate and promote the well-being and success of all students (Elias et al., 1997; Greenberg et al., 2003).</p>	<p>socioeconomically disadvantaged students.</p>
<p>2.5</p>	<p>Action: Mental health clinician:</p>	<p>Addressing poverty and providing mental health resources for students can help alleviate stressors and improve mental health, leading to better</p>	<p>Emotional safety and support of students survey results.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Need: KIPP would like to see growth in the emotional safety and support of student survey results, which represents questions from the The New Teacher Project (TNTP). KIPP wants to continue to focus on activities that support connection to resources due to the high number of students that qualify as socioeconomically disadvantaged.</p> <p>Scope: LEA-wide</p>	<p>academic performance and overall well-being. The services provided by the mental health clinicians are part of a larger multi-tiered system of support (MTSS), which offers specific interventions based on need. Research has shown that MTSS is an effective framework for addressing the academic, behavioral, and social-emotional needs of all students, particularly those who face additional challenges (Averill & Rinaldi, 2011; Sugai & Horner, 2009).</p> <p>A study by Fazel, Hoagwood, Stephan, and Ford (2014) found that school-based mental health services can significantly improve academic outcomes and reduce emotional and behavioral problems among students, especially those from low-income families. Furthermore, research by Durlak, Weissberg, Dymnicki, Taylor, and Schellinger (2011) demonstrated that universal social and emotional learning programs, which are a key component of MTSS, can lead to significant improvements in students' social and emotional skills, attitudes, behavior, and academic performance.</p> <p>While all students will benefit from the implementation of an MTSS and the support of mental health clinicians, KIPP's students who qualify as socioeconomically disadvantaged may require higher tier interventions, which include services supported or coordinated by the mental health clinician. This targeted approach aligns with research emphasizing the importance of providing intensive, individualized support for students with the greatest needs (Fuchs & Fuchs, 2006; Lane, Oakes, & Menzies, 2014). By providing these services on an LEA-wide or schoolwide basis, KIPP ensures that all students, particularly those</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		<p>from disadvantaged backgrounds, have access to the mental health support they need to thrive academically and emotionally, ultimately increasing and improving services for the school's unduplicated student population.</p>	
<p>2.6</p>	<p>Action: Community Schools:</p> <p>Need: Research has shown that full-service community schools are an effective place-based strategy to meet the educational needs of high-need students. Students from disadvantaged backgrounds often face a range of challenges that can impact their academic success, such as poverty, trauma, and limited access to resources and support services (Oakes, Maier, & Daniel, 2017).</p> <p>Scope:</p>	<p>By implementing the Four Pillars of Community Schools, KIPP is working to create a comprehensive support system that addresses the diverse needs of its students and families. The Regional Collaborative Care and Support Managers (CCSMs) will play a crucial role in this initiative by serving as the main drivers behind needs assessment work, project managers overseeing the implementation of community schools initiatives, resource managers, participants and leaders in the coordination of services, and managers of Coordination of Service referrals. This collaborative and integrated approach aligns with research highlighting the importance of providing comprehensive, wraparound services to support the success of students from disadvantaged backgrounds (Dryfoos, 2000; Valli, Stefanski, & Jacobson, 2014).</p> <p>By implementing the community schools model on an LEA-wide or schoolwide basis, KIPP is working to improve services for its unduplicated student population. Research has shown that community schools can be particularly effective in supporting the needs of students from families and communities that qualify as low-income (Heers, Van Klaveren, Groot, & Maassen van den Brink, 2016; Maier et al., 2017). Through this initiative, students and families will feel more supported by</p>	<p>Chronic absence rates and school culture index responses.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		their community and more empowered, as they build important skills.	
3.1	<p>Action: Hiring process:</p> <p>Need: Research has consistently shown that teacher quality is one of the most important factors influencing student achievement, particularly for students that qualify as socioeconomically disadvantaged (Darling-Hammond, 2000; Rivkin, Hanushek, & Kain, 2005). A study by Egalite, Kisida, and Winters (2015) found that students of color who were taught by teachers of the same race/ethnicity experienced positive effects on their academic achievement and attitudes towards school.</p> <p>This dedicated team supplements the traditional hiring process by focusing on diverse and equitable hiring practices, with goals to bring in staff that can best support high-needs students and increase the number of teaching staff who self-identify as people of color.</p> <p>Scope: LEA-wide</p>	<p>By implementing a rigorous hiring process that focuses on diverse and equitable hiring practices, KIPP is working to ensure that all students, particularly those who qualify as socioeconomically disadvantaged, have access to high-quality teachers who can best support their learning needs. Effective teachers are subject to robust screenings to ensure they will be successful working with KIPP communities to improve the quality of instruction for KIPP's unduplicated student population.</p> <p>This approach aligns with research emphasizing the importance of providing students that qualify as socioeconomically disadvantaged with access to highly effective teachers and a diverse teaching workforce in order to promote educational equity and improve student outcomes (Darling-Hammond, 2015; Ingersoll & May, 2011). By providing these services on an LEA-wide or schoolwide basis, KIPP ensures that all students, regardless of their background, have the opportunity to learn from skilled and diverse educators who can help them achieve academic success.</p>	Teacher credential data results.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
<p>3.2</p>	<p>Action: Title I and II, improving academic outcomes:</p> <p>Need: KIPP has seen mixed results between elementary and middle school teacher's experiences with their professional development, which represents questions from the The New Teacher Project (TNTP) survey. While these results are trending positive, KIPP wants to continue to focus on teacher development as we embark on the implementation of a new regional academic curriculum.</p> <p>Strong, supportive, and prepared teachers are critical to student achievement, particularly for students who qualify as socioeconomically disadvantaged or have been identified as needing additional support. These students often face educational inequities and may require more targeted interventions and high-quality instruction to close achievement gaps (Darling-Hammond, 2010; Isenberg et al., 2016).</p> <p>KIPP's majority student population qualify as socioeconomically disadvantaged. Recent state testing results (2022-23) for socio-economically disadvantaged exceeded or met the results of the authorizing district but still fall below the state for ELA by 10 points, and SED students fall nearly .5 points behind all</p>	<p>Through targeted professional development led by the school's leadership, effective, evidence-based educational strategies are taught and modeled to close the achievement gap and enable high-needs students to meet the state's challenging academic standards. Research has consistently shown that high-quality professional development can significantly improve teacher effectiveness and student achievement (Darling-Hammond, Hylar, & Gardner, 2017; Yoon, Duncan, Lee, Scarloss, & Shapley, 2007). A meta-analysis by Kraft, Blazar, and Hogan (2018) found that teacher coaching had a positive effect on student achievement, with larger effects observed in studies that focused on specific subject areas and provided more intensive coaching.</p> <p>Research has highlighted the importance of teacher retention and continuity in promoting student success, particularly in high-needs schools (Ronfeldt, Loeb, & Wyckoff, 2013; Sutchter, Darling-Hammond, & Carver-Thomas, 2016). By providing ongoing professional development opportunities and supporting a leadership pipeline, KIPP is working to build continuity in teaching and leadership for the school communities, which can contribute to improved student outcomes.</p> <p>Providing targeted development for teachers with these additional resources in order to attain higher academic achievement contributes to increasing and improving services for the school's unduplicated student population, particularly those who qualify as socioeconomically disadvantaged.</p>	<p>Measure student growth and proficiency on state standardized assessments, disaggregating data for socioeconomically disadvantaged students and those receiving interventions.</p> <p>Conduct regular classroom observations to assess the implementation and fidelity of evidence-based strategies taught during professional development sessions.</p> <p>Year-over-year teacher retention rates, aiming for improvement or maintaining high levels of retention.</p> <p>Reduce achievement gaps between targeted student groups and the overall student population on standardized assessments.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>students. Mathematics is tracking 20 points behind the state scores.</p> <p>Scope: LEA-wide</p>		
<p>3.5</p>	<p>Action: More teacher time:</p> <p>Need: Students who qualify as socioeconomically disadvantaged often face educational inequities and may require additional instructional time and support to close achievement gaps and stay engaged in school (Patall, Cooper, & Allen, 2010; Redd et al., 2012).</p> <p>KIPP would like to see growth in teacher's alignment with the school's academic approach, which represents questions from the The New Teacher Project (TNTP) survey. A continued focus in academic alignment will be critical as KIPP embarks on the implementation of a new regional academic curriculum.</p> <p>Scope: LEA-wide</p>	<p>More time initiatives have shown promise in improving academic outcomes among students who are most likely to fall behind. Research has demonstrated that increased instructional time can lead to improved student achievement, particularly for students from disadvantaged backgrounds (Battistin & Meroni, 2016; Figlio, Holden, & Ozek, 2018). By providing additional focused time, KIPP aims to support struggling students, engage them more fully, and reduce the likelihood of dropping out. This contributes to increasing services for the school's unduplicated student population. Offering competitive teacher salaries helps attract and retain high-quality educators, which is crucial for implementing effective extended learning time programs (Darling-Hammond, 2000; Ronfeldt, Loeb, & Wyckoff, 2013). By providing these services on an LEA-wide or schoolwide basis, KIPP ensures that all students have access to the additional instructional time and support they need to succeed academically and stay engaged in school.</p>	<p>Teacher academic curriculum survey results.</p> <p>State testing results - ELA and Mathematics.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
<p>3.9</p>	<p>Action: Personal learning technology devices:</p> <p>Need: Families are surveyed about access to the internet at home and comfort with navigating technology in order to build technology fluency that prepares students and families for next-generation learning. Support of students and families during the COVID-19 crisis showed higher technology needs for KIPP's student population that qualifies as socioeconomically disadvantaged.</p> <p>Scope: LEA-wide</p>	<p>KIPP maintains a 1:1 ratio for devices to ensure no student has a gap in access, and devices are available for at-home use if needed. Research shows that access to technology and digital tools can enhance learning, engagement, and achievement, particularly for disadvantaged students (Darling-Hammond et al., 2014; Zheng et al., 2016). Providing technology access and support is crucial for promoting educational equity and preparing students for success in a digital world (Warschauer et al., 2004). The continuation of robust technology supports serves to increase and improve services for KIPP's unduplicated student population, particularly those who qualify as socioeconomically disadvantaged. By providing these services on an LEA-wide or schoolwide basis, KIPP ensures all students have the tools and support they need to succeed in a technology-driven learning environment.</p>	<p>Teacher academic curriculum survey results.</p>
<p>3.11</p>	<p>Action: Support for new teachers:</p> <p>Need: New teacher development plays a crucial role in achieving success with students who may have higher learning needs.</p> <p>KIPP has seen mixed results between elementary and middle school teacher's experiences with their professional development, which represents questions from the The New Teacher Project (TNTP) survey. While these results are trending positive, KIPP</p>	<p>By investing in a new teacher development program, KIPP equips educators with the necessary knowledge, tools, and support to more effectively meet the needs of diverse learners. Research has shown that high-quality teacher induction and mentoring programs can improve teacher effectiveness, retention, and student achievement (Ingersoll & Strong, 2011; Schmidt, Young, Cassidy, Wang, & Laguarda, 2017). New teachers who undergo this development build a deeper understanding of the specific needs of their students, enabling them to create inclusive and engaging learning environments. Additional professional development and onboarding time to</p>	<p>Teacher professional development survey results.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>wants to continue to focus on teacher development as we embark on the implementation of a new regional academic curriculum.</p> <p>Scope: LEA-wide</p>	<p>prepare new KIPP teaching staff serves to improve services for the school's unduplicated population, particularly those who qualify as socioeconomically disadvantaged and multilingual learners. By providing these services on an LEA-wide or schoolwide basis, KIPP ensures that all students, regardless of their background or learning needs, have access to well-prepared and supported teachers who can effectively facilitate their academic success.</p>	
<p>3.12</p>	<p>Action: Expanded enrichment opportunities:</p> <p>Need: Students who qualify as socioeconomically disadvantaged may face challenges in accessing extracurricular activities or may not have a safe and supportive environment outside of school hours. These students may also benefit from additional learning opportunities and support to help close the achievement gap (Afterschool Alliance, 2016; Lauer et al., 2006).</p> <p>Scope: LEA-wide</p>	<p>Research conducted by the Afterschool Alliance (2016) showed that participation in after-school programs was associated with improved academic performance, particularly in reading and math. The study also found that students who participate in after-school programs are more likely to graduate high school and pursue post-secondary education. After-school programs provide a safe and supportive environment for students, particularly those who qualify as socioeconomically disadvantaged and may not have access to extracurricular activities or face other challenges at home. By offering extended enrichment time, KIPP contributes to increasing (time) and improving (quality) services for the school's unduplicated student population. By providing these services on an LEA-wide or schoolwide basis, KIPP ensures that all students, regardless of their background or family resources, have access to a wide range of enriching activities and support that can foster their academic, social, and emotional development.</p>	<p>Family school culture index and emotional safety and support of students survey results.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
<p>3.13</p>	<p>Action: KIPP Contributions</p> <p>Need: During a period where many districts reduced roles, cut benefits, or other staff services, KIPP maintained normal hiring and return practices and has retained the discretionary 401(k) matching option at 100% of the 4% employee contribution. These employee services are intended to support teachers in their professional and personal endeavors while also aiming to retain quality teachers at higher rates year over year. High teacher turnover can disproportionately impact students with high needs, as they may experience a lack of continuity in their learning and development (Ronfeldt, Loeb, & Wyckoff, 2013; Simon & Johnson, 2015).</p> <p>Scope: LEA-wide</p>	<p>KIPP 401(k) matching contributions are supplemental and serve as a way to support and retain high-quality teaching talent in the competitive Bay Area market. Research has shown that teacher retention is crucial for promoting student achievement and creating a stable learning environment, particularly in schools serving high-needs populations (Darling-Hammond, 2000; Ingersoll, 2001). By offering competitive benefits and supporting teachers' financial well-being, KIPP aims to increase retention rates and ensure continuity of learning and development for students who are disproportionately impacted by high teacher turnover. This is especially important for KIPP schools, where the percentage of students with high needs is significantly higher than the state average. Studies have found that teacher turnover can negatively affect student achievement, with a more pronounced impact on students from disadvantaged backgrounds (Hanushek, Rivkin, & Schiman, 2016; Ronfeldt et al., 2013). By providing these services on an LEA-wide or schoolwide basis, KIPP is working to improve services for the school's unduplicated population by creating a more stable and supportive learning environment with experienced, committed teachers.</p>	<p>Teacher retention data results.</p>
<p>3.14</p>	<p>Action: Continuity of Learning:</p>	<p>Teacher return bonuses serve as an effective strategy to enhance teacher retention rates and acknowledge the dedication and commitment of</p>	<p>Teacher retention data results.</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Need: Teacher turnover can have a significant negative impact on student learning, particularly for students with high needs who may be more vulnerable to the disruptions caused by frequent changes in teaching staff (Ronfeldt, Loeb, & Wyckoff, 2013; Simon & Johnson, 2015). Additionally, the shortage of available substitute teachers during the pandemic has made it difficult for schools to ensure continuity of learning when regular teachers are absent (Kraft & Simon, 2020).</p> <p>Scope: LEA-wide</p>	<p>experienced teachers. Research has shown that financial incentives can be a powerful tool for retaining high-quality teachers, particularly in schools serving disadvantaged student populations (Clotfelter, Glennie, Ladd, & Vigdor, 2008; Springer, Swain, & Rodriguez, 2016). By offering bonuses to returning teachers, KIPP is working to create a stable and supportive working environment that reduces turnover rates and ensures continuity of learning for students. In-house teaching substitution, supported by increased stipends for teaching staff, provides important continuity for students when regular teachers are absent. This approach allows KIPP to leverage the expertise of its existing teachers and maintain a sense of stability in the classroom, even when faced with the challenges of teacher absences and substitute shortages. Research has highlighted the importance of maintaining instructional continuity and minimizing disruptions to student learning (Miller, Murnane, & Willett, 2008; Sawchuk, 2021). These additional financial incentives are intended to retain quality teachers at higher rates year over year. Increasing retention at KIPP schools, where the percentage of students with high needs is significantly higher than the state average, will ensure continuity of learning and development for students who are disproportionately impacted by high teacher turnover, thereby improving services for the school's unduplicated population. By providing these services on an LEA-wide or schoolwide basis, KIPP is working to create a stable and supportive learning environment that promotes academic success for all students, particularly those with the greatest needs.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
3.15	<p>Action: Mental Health for All:</p> <p>Need: KIPP's most valuable resource is its people. The work, while incredibly rewarding and impactful, is also demanding. The past few years have been particularly challenging and stressful while in recovery from the COVID-19 pandemic. Teacher well-being and mental health are crucial factors in promoting job satisfaction, retention, and ultimately, student success (Greenberg, Brown, & Abenavoli, 2016; McLean & Connor, 2015). Supporting teachers' mental health is especially important in schools serving high-needs populations, where the demands on educators may be greater (Herman, Hickmon-Rosa, & Reinke, 2018).</p> <p>Scope: LEA-wide</p>	<p>The mental health for all initiative services are intended to support teachers in their professional and personal endeavors while also aiming to retain quality teachers at higher rates year over year. Research has shown that teacher well-being and mental health are significant predictors of job satisfaction, commitment, and retention (Jennings & Greenberg, 2009; Skaalvik & Skaalvik, 2011). By providing comprehensive mental health resources and support, KIPP is working to create a positive and supportive work environment that promotes teacher well-being and reduces the risk of burnout.</p> <p>Increasing retention at KIPP schools, where the percentage of students with high needs is significantly higher than the state average, will ensure continuity of learning and development for students who are disproportionately impacted by high teacher turnover. Studies have found that teacher turnover can have a negative impact on student achievement, particularly in schools serving disadvantaged populations (Hanushek, Rivkin, & Schiman, 2016; Ronfeldt, Loeb, & Wyckoff, 2013).</p> <p>By providing these mental health services and supports on an LEA-wide or schoolwide basis, KIPP is working to improve services for the school's unduplicated population by fostering a stable, supportive, and mentally healthy teaching staff. This approach aligns with research highlighting the importance of teacher well-being in promoting positive student outcomes and creating</p>	Teacher retention data results.

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
		a nurturing learning environment (Jennings & Greenberg, 2009; Roeser, Skinner, Beers, & Jennings, 2012).	

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
1.1	<p>Action: Support for multilingual learners:</p> <p>Need: KIPP has a higher population of multilingual learners than the state of California but is still working towards meeting comparable state results for English Learner Progress (ELPI).</p> <p>An ELD teacher’s expertise in language development theory, instructional methods, and assessment practices ensure that these students receive the focused attention they need to effectively access grade-level content across all subject areas. Moreover, the ELD teacher collaborates closely with general education teachers to ensure appropriate</p>	Multilingual learners may face unique challenges in the classroom, such as difficulty understanding instruction, limited English vocabulary, and cultural differences that may impact their learning experience. These challenges can hinder academic progress. Providing these additional, targeted supports for multilingual learner students in order to attain higher academic achievement has contributed to improving services for the school's unduplicated student population (multilingual learners).	ELPI and reclassification results.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p>accommodations and differentiated instruction, creating an inclusive learning environment that promotes academic success for all students.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>		
<p>1.5</p>	<p>Action: Title III:</p> <p>Need: KIPP has a higher population of multilingual learners than the state of California but is still working towards meeting comparable state results for English Learner Progress (ELPI).</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	<p>Research has shown that targeted professional development and coaching for teachers can significantly improve the effectiveness of instruction for multilingual learners (Darling-Hammond et al., 2017; Garet et al., 2001). By providing training and facilitating data meetings where teachers, APs, and instructional coaches review student data, the ML instructional coach enables data-driven instructional decisions and promotes the effective implementation of ML instructional strategies. This approach aligns with evidence-based practices that emphasize the importance of using data to inform instruction and support student learning (Hamilton et al., 2009). Furthermore, the ML instructional coach's targeted coaching and feedback through classroom observations ensures that teachers receive individualized support to improve their practice, which has been shown to be an effective method for enhancing teacher quality and student outcomes (Joyce & Showers, 2002; Knight, 2007). The identification of supplemental regional curricula and educational technology designed specifically to improve outcomes for ML students further demonstrates KIPP's commitment to providing high-quality, evidence-based resources for student learning.</p>	<p>ELPI and reclassification results.</p>

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
3.16	<p>Action: Transportation Resources</p> <p>Need: KIPP has identified significant transportation barriers that disproportionately impact unduplicated students, including low-income families, English learners, and foster youth, creating inequitable access to consistent school attendance and educational opportunities. Data analysis reveals that students from economically disadvantaged backgrounds experience higher rates of chronic absenteeism and tardiness directly correlated with transportation challenges, including lack of reliable family vehicles, inability to afford public transportation costs, geographic distance from school sites, and parents' work schedules that conflict with school start and end times. Many unduplicated families rely on complex transportation arrangements involving multiple family members, public transit systems with limited routes and scheduling, or walking long distances that create safety concerns and weather-related attendance barriers. English learner families often face additional challenges navigating public transportation systems, while foster youth may experience frequent placement changes that disrupt established transportation routines. School-based needs assessments and family surveys consistently identify transportation as a primary barrier preventing regular attendance,</p>	<p>Research from the Urban Institute's 2017 comprehensive study "On the Road to School: Helping Children Succeed by Addressing Transportation Barriers" demonstrates that transportation barriers significantly impact student attendance, with economically disadvantaged students missing up to three more days of school annually compared to their peers with reliable transportation. As shown by this evidence, transportation resources—including bus passes, dedicated school bus routes, and transportation vouchers—effectively encourage greater attendance and improved academic outcomes by alleviating family stresses over transportation logistics, particularly for working parents with scheduling constraints or limited vehicle access. These resources reduce inequitable commute barriers such as geographic isolation, promote enhanced student safety during daily travel, and create consistency in daily routines that benefit student well-being. By providing transportation support, students—especially those with higher needs—arrive more prepared and ready to learn, demonstrate increased participation in extracurricular and enrichment activities, and engage more fully in school activities and community forums. This initiative reinforces KIPP's commitment to the fundamental message that every student's presence, participation, and progress is valued in the school community.</p>	<p>Chronic Absenteeism - Transportation resources directly support improved outcomes in chronic absenteeism rates by removing daily barriers that prevent consistent school attendance, particularly for low-income families who may lack reliable vehicles or face economic hardships that affect transportation access. Enhanced Average Daily Attendance (ADA) results from reduced transportation-related absences, as students with reliable school transportation demonstrate more consistent attendance patterns and fewer tardies that can escalate into chronic absence issues.</p>

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
	<p>with families reporting that transportation costs strain already limited household budgets and create stress that impacts student readiness to learn. These transportation inequities directly contribute to achievement gaps and limit unduplicated students' access to the full educational program, including after-school programming, extracurricular activities, and family engagement opportunities that support academic success and school connectedness.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>		

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		17.4

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of certificated staff providing direct services to students		13.9

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of EC Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
 - If the LEA has unexpended LREBG funds the LEA must provide the following:
 - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
 - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
 - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
 - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
 - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
 - Actions may be grouped together for purposes of these explanations.
 - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
 - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by EC Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: [EC Section 52060\(g\)](#) and [EC Section 52066\(g\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
 - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
<ul style="list-style-type: none"> • Enter the metric number.
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 . Leave blank until then.	Enter information in this box when completing the LCAP for 2026–27 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 and 2026–27 . Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
 - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
 - Identify the action as an LREBG action;
 - Include an explanation of how research supports the selected action;
 - Identify the metric(s) being used to monitor the impact of the action; and
 - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA’s percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
 - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
 - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
November 2024
