The framework provides clear direction for instructional practices, assessments, and professional learning to ensure consistency across all schools. Key areas of focus include alignment of instructional practices district-wide, use of common assessments, implementation of the English Learner Roadmap, strengthening Professional Learning Communities through Solution Tree training, and targeted professional development in reading comprehension for grades 3–5. These initiatives aim to promote equity, improve student outcomes, and ensure all schools are working toward a shared vision of academic excellence.

Trustee Marquez asked how teachers are adapting to the new curriculum, and Herrera responded.
