Re: **26-27 Redwood City Rollover**

Dear Richie Wilim Jr.,

Thank you for allowing Sysco San Francisco California the opportunity to bid on **26-27 Redwood City Rollover** for the period of **July 1, 2026, through June 30, 2027**.

For your consideration, we've included additional varieties and cost-effective alternatives. If items on bid have guaranteed pricing that expires before the end of bid term, the expiration date will be noted on the customer copy. New bid pricing for these items will be provided after we have received the renewals from the suppliers. Notification by letter will be sent with new cost and effective dates.

Bid Pricing Overview (Noted on Sysco Customer Copy):

- *** (Asterisk)** - Items bid without a manufacturer's price guarantee.
- **P** In the case of drastic weather conditions around the country we may be forced to implement an "Act of God Clause". In the event of this occurrence, we will provide a written notice, and new pricing will take effect immediately.
- **Ecolab**- Please reach out to your local Ecolab Representative for your contract pricing on all items marked as "**ECOLAB**" on your customer copy.
- **Special Order**: Items marked as special order will be stocked with a consistent weekly movement of 10 cases or more.

Delivery and Opening Order Overview:

- **Deliveries**: Orders that ship must meet a 20 case and \$850.00 minimum order requirement. This will be waived during holiday weeks.
- **Opening Orders**: Opening orders should be submitted, and menu cycles should be provided to your Bid Specialist a minimum of 3 weeks in advance.

Please note that some items may be bid as special order. These items will require a four- week lead time to process. Any item brought in for a customer via special order will need to ship in full to the customer within 30 days from the received date.

Should we receive notification from our manufacturer of price changes due to the volatility in the market, where contracted pricing cannot be extended, we will give you written notice of intent to change price. As well as documentation from the manufacturer of the intended price change with new guaranteed dates.

To ensure pricing and accuracy, Sysco San Francisco requires at least two-week notification for pricing implementation and inventory level adjustments. Only Sysco awarded items will be entered into our pricing system, and items not awarded Sysco may not be valid at bid price.

If you have any questions, please feel free to contact your Sysco Representative or Summer Knight, Contract Bid Manager at 209-596-9438.

Sincerely,

Summer Knight

Sysco Food Safety System Overview

PROCESS FLOW OF DISTRIBUTION SUPPLY CHAIN

Receiving -> Put Away -> Storage -> Selection -> Loading -> Delivery -> Returns

HAZARD ANALYSIS AND FOOD SAFETY PREVENTIVE CONTROLS PLAN

Sysco Operating Sites have documented Hazard Analysis. The hazards include Biological, Chemical (includes Allergens and Radiological), Physical Hazards and acts of Intentional Adulteration that may be of a food safety risk to various product groupings.

A comprehensive risk-based Food Safety Preventive Controls plan based on Hazard Analysis Critical Control Point (HACCP) principles has been developed for product groupings where the likelihood and severity of each hazard is significant. The Food Safety Preventive Controls Plan is reviewed by the Global Support Center and Local Food Safety Teams annually or as needed.

There are two Critical Control Points: RECEIVING and STORAGE

PREREQUISITE PROGRAMS

Sysco Operating Sites have Prerequisite Programs in place that include Preventive Maintenance, Cross Contamination, Cross Contact (allergen), Non-Conforming Product, Pest Control, Sanitation, Temperature Control and Monitoring, Good Manufacturing Practices, Training, Recalls and Customer Complaints.

PREVENTIVE MAINTENANCE

A Preventive Maintenance Program is in place at each Operating Sites. The Preventive Maintenance Program covers the maintenance and repair of the facility, equipment and transportation vehicles and trailers.

CROSS CONTAMINATION CONTROL

Sysco Operating Sites have written Cross Contamination requirements and procedures in place. These requirements and procedures define the control steps associates must follow to minimize the risk of cross contamination from Biological, Chemical (non-allergenic) and Physical contaminants to food products.

CROSS CONTACT (ALLERGEN) CONTROL

Sysco Operating Sites have written Cross Contact (Allergen) requirements and procedures in place. These procedures and requirements define control steps associates must follow to minimize the risk of allergen contamination to food products.

NON-CONFORMING PRODUCT

Sysco Operating Sites have requirements and procedures in place to address the handling of non-conforming, damaged, wasted and returned products.

PEST CONTROL

Sysco Operating Sites have a Pest Control Program in place. The Program defines the requirements for Integrated Pest Management (IPM) strategies to prevent contamination by insect/rodent infestation and/or harborage at the Operating Sites.

Third Party Licensed Pest Control Operators are contracted at each facility as part of the IPM program. Only approved pesticides for food facilities are utilized in designated areas.

SANITATION CONTROLS

Sysco Operating Sites have written Sanitation Standard Operating Procedures and requirements in place for Facility and Vehicle Sanitation.

These written Sanitation Standard Operating Procedures and requirements define the ongoing responsibilities of Sysco's associates to ensure the Operating Sites are clean, sanitary and in good repair.

TEMPERATURE CONTROL AND MONITORING

Sysco's Food Safety System includes an Integrated Cold Chain Monitoring System that evaluates ambient air and/or direct product temperatures during Inbound Receiving, Storage and Outbound Delivery activities. From receipt to storage to delivery, temperatures are monitored to ensure Food Safety.

The HACCP Plans define specific monitoring requirements that must be followed and documented during Receiving. Sysco Branded refrigerated raw ground beef, raw chicken, fresh seafood and fresh produce are required to have a Time Temperature Recorder (TTR) with each inbound shipment. Radio Frequency (RF) enabled TTRs are used to automate the temperature data downloads and generate email notifications to better ensure this important information is gathered and reviewed by Operating Sites associates.

Refrigerated HACCP storage areas and loading docks are continuously monitored 24 hours a day/7 day a week. Automated email and cellular notifications occur when storage area air temperatures deviate from Warning and Critical alert limits. Storage temperature data is reviewed daily by a qualified individual and verified weekly by a HACCP certified colleague.

Trailers for delivery are pre-cooled prior to loading and temperatures are continuously monitored by the driver throughout the delivery process. A select number of delivery vehicles are equipped with real-time temperature monitoring equipment that provides notifications of temperature deviations in real-time.

GOOD MANUFACTURING PRACTICES

Written Good Manufacturing Practices (GMP) requirements are implemented at each Operating Sites. These written GMP requirements address associate cleanliness/hygiene, hand washing, food and beverage consumption, tobacco usage, cuts, illness reporting and proper food handling.

TRAINING

All Operating Site personnel, including temporary personnel and contractors, are properly trained on all Food Safety procedures and requirements prior to beginning work.

PRODUCT RECALL PROGRAM

Sysco Operating Sites have a Product Recall Program in place to ensure recalled products are removed from the market-place in a timely manner. The Program defines the required activities for inventory management, customer communication, product recovery and cost recovery.

The Recall/Traceability system's effectiveness is tested routinely through regular Recalls and Mock Recalls.

CUSTOMER COMPLAINTS

Sysco Operating Sites have procedures in place to address customer complaints that are Food Safety related.

SECURITY VULNERABILITY ASSESSMENT AND FOOD DEFENSE

Sysco Operating Sites are registered as required by the Public Health Security and Bioterrorism Preparedness Act of 2002. Sysco Operating Sites have obtained their registration numbers as required by the U.S. Food and Drug Administration (FDA) as part of the Food Safety Modernization Act (FSMA).

A Vulnerability Assessment is performed annually using the Food Defense Plan Builder on the FDA website at [FDA Food Defense Plan Builder](#). Each Operating Site has a site-specific Food Defense Plan which includes mitigation strategies for intentional adulteration. It is developed in conjunction with applicable Regulatory requirements.

The following are some examples of security measures that Sysco utilizes. The security measures may vary from site to site.

- Alarm System
- Associate Background Checks
- Associate Access Badges
- Guard Building
- Secured Lots
- Gated Entrances
- Visitor Program
- Trailer Locks & Seals

FOOD SAFETY MODERNIZATION ACT

Sysco Operating Sites have a Food Safety System in place that complies with all the rules defined in the Food Safety Modernization Act (FSMA). Each Operating Site has a Preventive Control Qualified Individual (PCQI) responsible for direct oversight of the Food Safety System.

A reanalysis of the Food Safety System is performed annually or more frequently as needed.

GFSI RECOGNIZED STANDARD CERTIFICATION

Sysco sites are audited utilizing the BRCGS's Global Standard for Storage and Distribution. Each site is re-audited/recertified on a yearly basis by Merieux NutriScience Certification LLC - certification body. This Food Safety certification program was implemented in 2015. The certificates are available at each site.

DOCUMENTS AND RECORDS

Under subpart G of Title 21 of the Code of Federal Regulation Part 117 - Current Good Manufacturing Practice, Hazard Analysis and Risk-based Preventive Controls for Human Food, food distributors are neither receiving facilities that are required to establish a supply-chain program nor suppliers, because such entities are not manufacturers/processors.

Due to the proprietary nature of the Sysco Food Safety System; documents and records are available for review onsite only at Sysco Operating Sites. Documents and Records are not available for distribution.

Credits & Returns

How this policy helps our customer

Should a return be requested after a delivery has been made...

Sysco's approach to credits & returns remains simple and aimed at absolute customer satisfaction and ensuring a food safe supply chain. In order to maintain the highest levels of consumer food safety, we ask for your partnership in complying with this Customer Credit and Returns Policy. By working together, we can maintain the food safety and integrity of our supply chain.

Sysco Delivery Associates will return and credit any product that you do not accept at the time of delivery. Checking-in your order also provides you with an opportunity to request credit immediately if a product is invoiced but not included with your delivery. After delivery, credits and returns are limited within the parameters established within this policy.

Benefits of our Product Return & Credit Policy:

- Ensures product wholesomeness & quality
- Reduces product loss that ultimately impacts both Sysco and our Customer
- Speeds the processing of returns and refunds
- Assures product handling is compliant with Sysco's Food Safety Programs, USDA, FDA, OSHA and HAZMAT requirements
- Reduces the risk that a tampered, damaged or unwholesome product could be redistributed to another customer

At Time of Delivery

- Most credits and returns should happen when you are receiving your delivery.
- Your Sysco Delivery Associate will gladly help you verify the items delivered agree with your invoice.
- You may choose to return any item for credit at the time of delivery unless the item is a Special Order, Auto-Ship or Standing Order. Your Delivery Associate will make an adjustment on your invoice to keep for your records.
 - ✓ **Temperature Controlled for Safety (Refrigerated and Frozen) are only eligible for return at time of delivery.** (see attached table for listing of Time and Temperature Control for Safety)
- If a product is partially damaged, your Delivery Associate will make an immediate adjustment on your invoice.

Returning Product after Delivery & Product Integrity Requirements

Refunds or credits for these items will be determined by the Operating Company.

All other returns are accepted for a limited amount of time as long as they meet the important requirements below:
